

Urbandale Centennial Logo Design

Cover Design by Cari Wasmund

When Cari Wasmund of Des Moines entered the Urbandale Centennial Steering Committee's logo contest, her inspiration was heartfelt--she did it for her dad. Wasmund's father, Urbandale resident Donald Johnson, died unexpectedly in February 2014.

The Centennial Steering Committee received 15 entries in the contest. Wasmund was awarded \$350 for her winning entry. The logo will be used on items such as letterhead, websites, signage, T-shirts, memorabilia and other items related to the Centennial celebration. Finalists were chosen by a committee of media and marketing experts, and the recommendation was approved by the Centennial Steering Committee.

Wasmund, a pre-media specialist and a freelance graphic designer, said her mother, Linda Johnson, initially told her about the logo contest. She also saw news about the contest while checking the City of Urbandale website.

Wasmund said her father loved Urbandale. *"My parents' home is on 74th Street, right over by the high school. They love the Fourth of July festival. They love their street. They love their neighbors. He would have loved to see his daughter's work on a banner or a T-shirt out in his community and to see it everywhere."* Her family was also appreciative of the response last year from the Urbandale Fire and Rescue, and Police departments. *"They were really very sweet and kind when my father passed away. I did the logo for all those reasons."*

Wasmund's winning design features a "U" within each zero on a prominent "100" figure, representing "Uniquely Urbandale." The Urbandale Centennial is all about inclusion of its great residents, and the logo to be seen around town is a great start to our efforts to celebrate. Plans are underway to kick off the Centennial celebration with a community picnic on July 2, 2016. Activities will continue throughout that year and will be topped off with a gala on June 30, 2017, and an all-Urbandale High School reunion on July 1, 2017.

Wasmund is eager to see her logo put to use, and *"I'm hoping there will be a T-shirt or a hat with the logo, and I'll take it out to my father and put it on his grave."*

Reporting

Presented to

City of Urbandale
Iowa

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended

June 30, 2016

Executive Director/CEO

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Urbandale, Iowa, for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2016. This represents the City's 34th consecutive year of receiving this distinguished award.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report, which contents conform to program standards. Such reports must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to conform to Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

November 15, 2017

The Honorable Mayor and
Members of the City Council
City of Urbandale, Iowa

We are pleased to submit the Comprehensive Annual Financial Report of the City of Urbandale, Iowa, (the City) for the fiscal year ended June 30, 2017 (FY17), consistent with the requirements of Chapter 11 of the Code of Iowa that requires the City to publish within nine months of the close of each fiscal year, a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended June 30, 2017.

The City is responsible for the accuracy of the data presented in the Comprehensive Annual Financial Report. To the best of our knowledge and belief, the government-wide financial statements, fund financial statements, budgetary comparison, pension and health plan schedule, management's discussion and analysis and statistical tables included in this report, present fairly the financial condition of the City. To provide a reasonable basis for making these representations, internal controls have been established within the Finance and Records Department. The internal control framework is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Since the cost of internal controls should not outweigh their benefits, the City's internal control system has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. We believe that the City's internal accounting controls are adequate to ensure the continued integrity of the City's financial management practices.

The Comprehensive Annual Financial Report includes all governmental activities, organizations, and functions controlled by or dependent upon the City. Control or dependence is determined on the basis of budget adoption, taxing authority, funding, and appointment of the respective governing board. The Urbandale Water Utility (Water Utility) is reported as a discretely presented component unit of the City. While the Water Utility is legally separate, it provides water service exclusively to the citizens of Urbandale on behalf of the City, its three-member governing board is appointed by the Mayor and the Water Utility's operating budget is subject to the approval of the City Council.

The Code of Iowa requires an annual audit be made of the books of accounts, financial records, and transactions of all administrative departments of the City by the State Auditor or by a certified public accountant selected by the City Council. Eide Bailly LLP, Certified Public Accountants, conducted the audit for FY17. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audits, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for FY17 are fairly presented in conformity with GAAP. The independent auditors' report has been included in this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal was designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE GOVERNMENT

The City of Urbandale, incorporated in 1917, is located in central Iowa, adjacent to the City of Des Moines. The City also shares common borders with five other communities. The City occupies a land area of 22.87 square miles in Polk and Dallas Counties.

The City's 2015 Special Census population rose to 42,449 persons. The 2010 Census population was 39,463 persons, and its numerical population gain during the 2000 decade ranked second among all Iowa cities. Urbandale's 2000 Census population was 29,072 persons.

In 1965, the City Council adopted the Mayor-Council, with City Manager, form of government by ordinance. The policy making and legislative authority is vested in the City Council, which consists of five members. The City Council Members are elected on an at-large basis and serve four-year staggered terms. The Mayor serves as the chief executive officer for the City and presides over the City Council meetings. The City Council is responsible for adopting ordinances and resolutions, appointing board and commission members, adopting the annual operating budget and capital improvements program, authorizing contracts and hiring the City Manager, City Attorney and City Clerk. The City Manager serves as the chief administrative officer and is responsible for executing the policies of the City Council, supervising the day-to-day operations of the organization and hiring, firing and disciplining the organization's employees. However, the City Manager does not directly supervise the activities of the Water Utility and Library. These operations are governed by separate boards, which are appointed by the Mayor and City Council. Each board appoints a director to oversee the administrative operations of the department.

The City provides a wide range of public services, including police, fire and emergency medical service, library, parks and recreation, animal control, street maintenance, solid waste collection, code enforcement, water, and sanitary and storm sewer. Additionally, the organization is supported by several administrative operations, including technology, community development, economic development, city manager, human resources, finance and records, marketing, and legal. The annual budget represents the operating plan for all of these functions. Additionally, this document serves as a financial planning and control mechanism for the City. All departments are required to submit budget requests to the City Manager's office by early December. These requests are reviewed by the City Manager and a recommended operating budget is formulated for the City Council's consideration. In January and February, the Mayor and City Council participate in a series of work sessions to review the budget recommendations and to formulate a final budget document. The Code of Iowa requires the City Council to conduct a public hearing on the proposed budget and to adopt the final document by March 15. The City's expenditures are grouped into functions. The expenditure levels approved in the budget may not be exceeded on a function level unless a budget amendment is approved by the City Council. To assist the City Council in its monitoring of expenditures and revenues, quarterly budget summaries are prepared by the Finance and Records Department. Budget to actual comparisons are provided in the required supplementary information section of this report.

ASSESSMENT OF ECONOMIC CONDITION

To better understand the context of the City's financial statements, the following background information is provided for the reader.

Local Economy

Urbandale experienced yet another slight decline in residential construction in FY17, with 164 new single-family detached residences constructed, along with permits for 4 single-family attached (townhome) units. Even though construction continued to be slowed, the activity was still near the City's historical annual mean of 185 single-family attached and detached units. FY17's valuation reflects the slight decline in residential construction, with valuation of \$53.86 million. FY16's valuation was \$59.08 million. FY15's valuation was \$75.43 million. However, rezoning and platting activity continues to be

robust, and the construction of public improvements nearing completion in five developments creates another 137 single-family lots, and 120 multi-family units. This will provide opportunity for an increase in single-family detached, multi-family permitting and valuation in FY18.

FY17's total valuation for commercial and industrial permits increased for the 3rd consecutive year to \$39.83 million, bolstered in part by the construction of a new elementary school in the Waukee School District. FY16's total valuation for commercial and industrial permits was \$29.06 million. The total valuation for FY15 was \$22.97 million.

Permit and valuation data for the previous two fiscal years are summarized in the following table:

	<u>Fiscal Year 2017</u>		<u>Fiscal Year 2016</u>	
	<u># of Permits</u>	<u>Valuation</u>	<u># of Permits</u>	<u>Valuation</u>
Residential	310	\$ 53,864,805	299	\$ 59,084,829
Nonresidential	103	39,833,471	118	29,061,117
Miscellaneous minor	472	1,358,308	456	1,456,828
Total	885	\$ 95,056,584	873	\$ 89,602,774

Long Term Financial Planning

In 1981, the City Council approved fiscal performance goals for the City's operations. These goals concentrated on revenue, expenditure, reserve, investment, capital improvement, debt and financial reporting performance and were designed to maintain or improve the City's financial position. In approving the fiscal performance goals, the City Council emphasized the need for balancing current economic conditions in the community with the residents' demands for effective service delivery. In 2008, and again in 2016, these goals were updated to reflect current financial performance standards and benchmarks. The preparation of the City's annual operating budget and the five year capital improvements program are governed by the fiscal performance goals. As a result of these goals, the annual operating budget has been prepared on a two year basis, fund balances have been maintained at adequate levels and the property tax levy rate has remained relatively stable for the past sixteen years. To further assist the planning process for the operating budget, the City Council has approved long term staffing and long term financial plans and adopted a strategic plan for technology.

The long term improvement of the City's infrastructure is outlined in the five-year capital improvements program (CIP). The 2017-22+ CIP was adopted by the City Council in January, 2017. The approved 2017 CIP anticipated the expenditure of \$27,748,800 for various art, park, bridge, sidewalk, storm sewer, street, street lighting, traffic signal, public building, technology, equipment, and water system improvements. Property tax supported general obligation bonds would provide approximately \$6,704,900 of the needed funding, with the remaining funds to come from local operating revenues, tax increment debt, and other public and private sources.

The 2018-2023+ CIP is currently under development and will be reviewed by a citizen's advisory committee in November and December, 2017, with final adoption by the City Council anticipated in January, 2018. This preliminary 2018 CIP proposes the expenditure of \$29,989,600 for various art, park, bridge, sidewalk, storm sewer, street, street lighting, traffic signal, public building, technology, equipment, and water system improvements in 2018. Property tax supported general obligation bonds would provide approximately \$6,526,500 of needed funding. Since the new CIP for 2018-2023+ is still under development, the above referenced amounts may change as a result of updating the program. It is anticipated that the 2018-2023+ CIP will be substantially completed before the development of the FY19-20 annual operating budget.

FY17 and FY18 Initiatives

The Mayor and City Council implemented programs and policies in FY17 and FY18 that will influence the City's financial operations during these two fiscal years and into the future. While many of the key initiatives reflect specific City projects and benefits, many reinforce the efforts by the Mayor and City Council to enhance the City's quality of life and to build cooperative partnerships on a local and regional basis. The key recognitions and initiatives include the following:

- September, 2016, approved continuing the Urbandale Home Efficiency Program for a second year in partnership with the local utility, which provides for participating residents to receive a zero interest loan for eligible home insulation.
- March, 2017, approved support of the MPO "Greater Des Moines Water Trails and Greenways Plan" and \$12,149 to complete the Phase 1 - Engineering Study.
- May, 2017, exercised the option allowed by the 2017 State Legislature to prohibit the use of first class fireworks in the City while allowing sale of the same.
- July, 2017, culminated a full year of Urbandale Centennial activities to celebrate the 100th birthday of the City of Urbandale.
- August, 2017, approved a three year joint agreement to cost share a Watershed Coordinator position for CIWMA which covers Urbandale's Walnut Creek and Beaver Creek watersheds.

Economic Development:

- October, 2016, approved an expansion of the Downtown Urbandale Neighborhood Area (DUNA) urban renewal area to allow property tax revenue collected in the area to fund activities identified in the Urban Renewal Plan to reduce blight and improve economic development.
- October, 2016, approved an IEDA application with Energy Control Technologies, for \$37,500 in HQJP benefits. This technology company will lease 7,400sf, and create 10 jobs.
- June, 2017, approved a design agreement to re-brand the I35-80 corridor for future development efforts and capital improvement investments.
- June, 2017, approved an IEDA application with Compressor Controls Corporation to consolidate its global headquarters in Urbandale; for \$32,500 in HQJP benefits. This company will retain 102 employees, lease 30,000Sf office, and invest \$5.5M.
- June, 2017, approved a Development Agreement with Discount Tire to develop 4300 Merle Hay Road in the DUNA TIF district.
- September, 2017, approved a Development Agreement with Hy-Vee to develop 3303 86th Street in the DUNA TIF district.
- September, 2017, approved a Development Agreement with Urban Town Center to develop 3701 86th Street in the DUNA TIF district.

Finance:

- April, 2017, approved \$9,580,000 as general obligation bond Series 2017A. The funds will be used for the FY2017-18 CIP projects and the refunding of 3 existing bonds/notes.
- April, 2017, approved \$7,985,000 as general obligation urban renewal bond Series 2017B. The funds will be used for the FY2017-18 CIP projects designated for TIF funding.
- August, 2017, set bond referendum election for November 7, 2017, to construct Fire Station No. 43 and to construct the off-site fueling station, not to exceed \$6M to design, construct, equip and furnish.

- August, 2017, set ballot language for November 7, 2017, regarding the Local Option Sales and Services Tax imposition in the Dallas County portion of Urbandale, 50% towards City-wide property tax relief, and 50% towards City-wide capital improvement projects.
- October, 2017, appointed the Capital Improvements Program (CIP) Committee to prepare the 2018-2023+ CIP. The ten year CIP identifies future annual projects to be funded by bonded debt, the operating budget, and other funding sources.

Public Safety:

- November, 2016, the Police Department achieved renewal of its CALEA (Commission on Accreditation for Law Enforcement Agencies) accreditation, first awarded in November, 2013. The CALEA accreditation signifies professional standards in operations, compliance, and cost-efficient solutions for Police services.
- November, 2016, approved a 28E agreement to renew mutual aid for Fire and EMS in Polk County and adjoining counties. And to charge for services if the event is 12 hours or more in order to qualify for possible FEMA cost recovery if the event is declared a disaster.
- February, 2017, the cities of Clive, Urbandale, and West Des Moines approved a 28E agreement with a private provider to shelter and care for impounded animals collected through WestPet operations. WestPet is an animal control partnership of three (3) cities.
- June, 2017, in memory and in honor of our fallen Urbandale police officer, named the entrance drive to the police station “Justin Martin Drive” and named the soccer field by the police station “Martin Field”.
- June, 2017, adopted the Standards of Cover (SOC) related to fire service response and future station location; adoption of the SOC is an initial step towards future accreditation of the Fire Department.
- July, 2017, approved a 28E agreement with the City of Clive for Closest Unit Response of Fire or EMS regardless of jurisdictional boundaries.
- August, 2017, approved a 28E agreement with seven (7) cities to purchase a Fire and EMS records management system; Urbandale’s share of the project is approximately \$33,058.

Parks, Recreation and Public Art:

- July 2016, approved three (3) phased recommendations based on the aquatics feasibility study: (1) a new outdoor pool on land for future expansion, (2) a new indoor pool when the current pool is no longer operational, and (3) expanded outdoor or indoor aquatic features to maintain and increase patronage.
- August, 2016, issued a Centennial Proclamation to dedicate the Centennial Art Sculpture entitled “Strata”, funded in part by the City’s Capital Improvements Program for public art, and BRAVO Greater Des.
- Park projects final approvals – the City Council accepted the following major projects as completed during the year:
 - September, 2016: Guaranteed a loan for the J-Hawk Soccer Club to install lights at the soccer field in Walker Johnston Park, in the amount of \$55,000.
 - November, 2016: Constructed a concrete parking lot with 299 parking stalls at the UGRA/USC complex, at a total cost of \$710,529.
 - April, 2017: Constructed a small open shelter in the Walnut Creek Regional Park to accommodate 40 people, and installed a concrete pad by the shelter for picnic tables, at a total cost of \$50,660.

- July, 2017: Constructed a pedestrian trail from Walnut Creek to 156th Street through Bent Creek Park (formerly Walnut Trace Park), at a total cost of \$471,400.
- July, 2017: Reconstructed the Memorial Park Trail - Skate Park trail east of the pedestrian bridge to 86th Street in Walker Johnston Park, at a total cost \$112,694.
- September, 2017: Repaired four of the eight tennis courts in Walker Johnston Park, and stripped the courts for tennis and pickle ball, at a total cost of \$154,367.
- Park projects awarded – the City Council awarded contracts for the following major projects that are not yet completed:
 - May, 2017, for \$140,000, to purchase and install LED tennis court lights at Walker Johnston Park.
 - August, 2017, for \$18,755, to design the Dunlap Park and Arboretum Master Plan; cost shared for the same amount with the Dunlap Park Foundation.
 - October, 2017, for \$56,800, to update the Parks, Recreation, and Open Space Master Plan- last done in 1995.

Facilities Maintenance improvements:

- Facilities Maintenance projects final approvals - the City Council accepted the following major projects as completed during the year:
 - November, 2016: Completed the masonry repairs to the Parks Maintenance Facility, at a total cost of \$215,161.
 - August, 2017: Replaced exterior façade on the pool building, at a total cost \$63,390.
 - August, 2017: Improved the Community Development/Engineering wing of City Hall by installing a new HVAC system, at a total cost of \$261,103.
- Facilities Maintenance projects awarded - the City Council awarded contracts for the following major projects that are not yet completed:
 - June, 2017, for \$15,640, to purchase and install audio/visual equipment in the large conference room at City Hall.
 - August, 2017, for \$52,500, to design the building security project for City facilities.
 - August, 2017, for \$140,000, to expand the Police Station geothermal HVAC system.

Public Works:

- July, 2017, approved a fifteen (15) year ADA Pedestrian Access Route Transition Plan, to provide ADA compliant accessible path options in the City's public rights-of-way.
- July, 2017, approved an IDOT Access Control Agreement to City owned property to enable the reconstruction of the Iowa 141 interchange at I-35/80.
- Street projects final approvals - the City Council accepted the following major projects as completed during the year:
 - July, 2016: Constructed 156th Street from Meredith Drive to Waterford Road as 5 lanes and replaced the bridge, at a total cost of \$9,636,126.
 - August, 2016: Overlay asphalt on 156th Street from Waterford Road and Meadows Drive, at a total cost of \$534,847.
 - December, 2016: Constructed 142nd Street from Hickman Road to Walnut Creek Bridge as 4 lanes, installed storm and sanitary sewer, at a total cost of \$2,157,095.
 - December, 2016: Urbanized Douglas Avenue from 100th Street to 111th Street, at a total cost of \$1,749,187.
 - August, 2017: Constructed a right turn lane at Douglas Parkway and 121st Street, at a total cost of \$219,766.

- Street projects awarded – the City Council awarded contracts for the following major projects that are not yet completed:
 - January, 2017, for \$4,322,196, to grade the 100th Street interchange ramps in preparation for paving.
 - February, 2017, for \$489,648, to reconstruct Aurora Avenue from 109th Street to the railroad crossing.
 - February, 2017, for \$4,737,762, to widen Meredith Drive from 128th Street to 142nd Street as 5 lanes, with a trail on the north side and a sidewalk on the south side.
 - March, 2017, for \$103,672 to design preliminary plans to install sidewalks on the south side of Aurora Avenue from 128th Street to 138th Street; and to design preliminary plans for future reconstruction of Aurora Avenue from 128th Street to 142nd Street.
 - April, 2017, for \$455,000 to buy 5.25 acres at 15808 Meredith Drive needed to enable the reconstruction of Meredith Drive from 156th Street to 170th Street.
- Other public improvement projects final approvals - the City Council accepted the following major project as completed during the year:
 - February, 2017: Installed a traffic signal preemption system for emergency vehicles at 37 intersections, at a total cost of \$424,737.
 - March, 2017: Constructed storm water channel improvements along Oakwood Drive near Hickory Lane/64th Street, at a total cost of \$561,977.
 - July, 2017: Reconstructed the storm sewer through the Colby Woods Greenbelt from Maple Drive to Roseland Drive, and replaced the trail, at a total cost of \$75,795.
- Other public improvement projects awarded - the City Council awarded contracts for the following major projects that are not yet completed:
 - February, 2017, for \$215,597, to install the Deer Creek trail and bridge on the north side of Hickman Road to connect to the Raccoon Valley trail over Walnut Creek.
 - July, 2017, approve a 28E agreement with the City of Clive to install 11 preemptive traffic signals on Hickman Road for jointly owned signals, at a total cost of \$35,662.

Cash Management Policies and Practices

Cash temporarily idle for operations for more than thirty days was invested in time certificates of deposit at least at the minimum rate as prescribed monthly by the State Treasurer's office and in financial instruments of the federal government. The City Council's investment policy is to offer these investments to local banks. During FY17, all temporarily idle cash was accepted by local banks. If not accepted by local banks, the investments would have been offered to banks in Des Moines, Iowa. Interest income from investments in FY17, exclusive of the Component Unit, was \$203,241, compared to \$142,202 in FY16.

Risk Management

In 1983, the City converted to a self-funded group health insurance plan. This program was designed to reduce health insurance costs through the assumption of additional risk. During the past thirty years, the City has realized a significant savings from self-funding and has been able to establish an insurance reserve fund. Proceeds from this reserve were utilized to stabilize the General Fund and Road Use Tax Fund contributions for health insurance in FY17. The City has seen an increase in health insurance reinsurance renewal rates in each of the last three years, and has had significant claims experience that has drawn down the reserve funds. The City has again increased both City and employee contributions to the fund, and will continue to do so until the reserve has been replenished.

The City has participated in the Iowa Communities Assurance Pool since 1989. This program combines traditional insurance coverage with a risk pooling arrangement. The City's comprehensive general liability, automobile, police, property and public officials liability coverage are provided directly by the

pool. The remaining portion of the City's insurance program, workers compensation, was once again placed with the Iowa Municipalities Workers Compensation Association (IMWCA). This program also utilizes a pooling concept to provide cities and counties with workers compensation coverage. Both public sector pools are in sound financial condition and should present the City with long-term premium savings. Starting in FY13, the City opted to self-insure for the public safety uniformed staff's workers compensation coverage, but will continue to use IMWCA to service and process these claims.

The City's risk management program also involves a loss control and accident review program. Through the property and casualty insurance pools, the City receives loss control services. The pools review City operations on a periodic basis and submit recommendations for safety improvements. All claims submitted against the City are also reviewed to determine if changes are needed in the safety program. A City-wide safety committee has been established to review all employee accidents and to establish a safety policy manual. The safety committee also meets annually with the City's management staff to discuss possible improvements in the safety program. All of these actions should reduce the City's potential for personal injury, property damage and liability claims.

Pension Benefits

The City contributes to the Municipal Fire and Police Retirement System of Iowa for its sworn officers in the Police Department and full time staff in the Fire Department. The City contributes to the Iowa Public Employees Retirement System for all other employees. Both of these State-wide systems provide retirement, disability and death benefits for its members and beneficiaries, which are established by State statute. The City is required to contribute a percentage of an employee's annual income, as established by the systems. Additional information regarding the two retirement systems is contained in the notes to the financial statements.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report for FY16. This is the highest form of recognition in the area of governmental financial reporting and is the 34th consecutive year the City has received this prestigious award. The Comprehensive Annual Financial Report for the year ended June 30, 2017 will be submitted to GFOA for review.

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the staff of the Finance and Records Department. We would like to express our appreciation to all members of the department, as well as staff throughout the City who assisted with the audit process and contributed to the preparation of this report. We also wish to thank the Mayor and members of the City Council for their interest and support of our efforts in conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

A.J. Johnson
City Manager

Nicole M. Lamb
Finance Director

Independent Auditors' Report

Management's Discussion and Analysis

Basic Financial Statements

Notes to Financial Statements

Independent Auditor's Report

To the Honorable Mayor and
Members of the City Council
City of Urbandale, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Urbandale, Iowa as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Urbandale, Iowa, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

Net Position Restatement

As discussed in Note 11 to the financial statements, the City identified and corrected an error in previously reported depreciation and accumulated depreciation balances. Accordingly, adjustments were made to restate beginning net position. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the other required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods or preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Urbandale, Iowa's financial statements. The introductory section, combining nonmajor fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and is not a required part of the financial statements.

The combining nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated November 15, 2017 on our consideration of the City of Urbandale, Iowa's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Urbandale, Iowa's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Urbandale, Iowa's internal control over financial reporting and compliance.

The image shows a handwritten signature in cursive script that reads "Eide Bailly LLP".

CITY OF URBANDALE, IOWA
Management's Discussion and Analysis
June 30, 2017

This section of the City of Urbandale's (the City) Comprehensive Annual Financial Report presents management's discussion and analysis of the City's fiscal performance during the fiscal year that ended on June 30, 2017 (FY17). It should be read in conjunction with the transmittal letter at the front of this report and the City's financial statements, which immediately follow this section.

Financial Highlights

- The assets and deferred outflows of resources of the City of Urbandale exceeded its liabilities and deferred inflows of resources at the close of FY17 by \$175,951,243 (net position). The total unrestricted net position of the City was negative (\$10,133,92). This was comprised of unrestricted negative governmental net position of (\$12,352,149) and business type activities net position of \$2,218,457.
- The City's total net position increased by \$13,054,257 in FY17. This increase was mostly attributable to increased property tax revenues, donated infrastructure, and federal grant revenue.
- For FY17, the City's governmental funds reported combined ending fund balances of \$46,968,403. The FY17 fund balance represented an increase of \$7,243,879 and was primarily attributed to a \$4.9 million increase in the capital projects fund, a \$2.2 million increase in the tax increment financing (TIF) fund, a \$.2 million increase in the general fund, a \$.34 million increase in the road use fund, and a \$.4 million decrease in the debt service fund.
- At the end of FY17, unrestricted fund balance for the general fund was \$10,476,684 or 39.0% of total general fund expenditures.

Overview of the Financial Statements

The basic financial statements consist of four parts:

- Management's Discussion and Analysis (this section),
- Government Wide Financial Statements,
- Fund Financial Statements, and
- Notes to the Financial Statements.

This report also contains required supplementary information and other supplementary information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the City of Urbandale's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all of the City of Urbandale's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between the four reported as net position. Over time, increases or decreases in net Position may indicate whether the City's financial Position is improving or deteriorating.

The Statement of Activities shows how the City's net position has changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change

CITY OF URBANDALE, IOWA

Management's Discussion and Analysis

June 30, 2017

occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal years.

The government-wide financial statements report on functions of the City of Urbandale that are principally supported by taxes and intergovernmental revenues, known as governmental activities. The governmental activities of the City include Public Safety, Public Works, Health and Social Services, Culture and Recreation, Community and Economic Development, General Government and interest and fiscal charges.

The government-wide financial statements also report the functions that are intended to recover all or a significant portion of their costs through user fees and charges, known as business-type activities. The City of Urbandale has one business-type activity to report for fiscal year 2017.

The government-wide financial statements include not only the City of Urbandale itself, known as the primary government, but also a legally separate Water Utility for which the City is financially accountable. Financial information for this component unit is reported separately from the financial information presented for the primary government. See footnote 1(b) to the financial statements for further information.

The government-wide financial statements can be found on pages 16 and 17 of this report.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Urbandale, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds

Most of the City's basic services are included in governmental funds, which focus on:

1. The inflows and outflows of cash and other financial assets that can be readily converted to cash, and
2. The balances left at year-end that are available for spending.

The governmental funds statements provide a detailed short-term view of the City of Urbandale's finances, indicating whether more or fewer financial resources can be spent in the near future to finance the City's programs. Since this information does not encompass the additional long-term focus of the government-wide statements, additional information is provided in a reconciliation following the governmental funds statements that explains the relationship (or differences) between them.

The City of Urbandale maintains 18 individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances for the general fund, road use fund, tax increment financing fund, debt service fund, and capital projects fund, all of which are considered to be major funds. Data from the other 14 governmental funds are combined into a single aggregate presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The basic governmental fund financial statements can be found on pages 18 through 21 of this report.

CITY OF URBANDALE, IOWA

Management's Discussion and Analysis

June 30, 2017

Proprietary funds

The City maintains two different types of proprietary funds. An enterprise fund is used to report the same function presented as the business-type activity in the government-wide financial statements. The City uses an enterprise fund to account for its Storm Water Utility. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City of Urbandale uses internal service funds to account for equipment replacement, technology, building maintenance, risk management and the general liability insurance program. Because these services benefit governmental functions, they have been included within governmental activities in the government-wide financial statements.

The City maintains five internal service funds, which are presented individually in the combining proprietary fund statements. The summary proprietary fund financial statements can be found on pages 22 through 24 of this report.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City of Urbandale's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The summary fiduciary funds financial statements can be found on page 25 of this report.

Notes to the financial statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 26 through 60 of this report.

Required Supplementary Information

The City of Urbandale presents required supplementary information which further explains and supports the financial statements with a comparison of the City's budget for the year, the City's proportionate share of the net pension liability and related contributions for both of the City's pension plans, as well as presenting the Schedule of Funding Progress for the Retiree Health Plan. These items are presented on pages 62 through 70 of this report.

Other information

In addition to the financial statements and the accompanying notes, this report also presents certain other supplementary information. The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information section. Combining fund statements can be found on pages 73 through 79 of this report. Statistical information related to the City's financial position can be found on pages 82 through 94 of this report.

Government Wide Financial Analysis

The following condensed financial information serves as the key financial data and indicators for management, monitoring, and planning. Financial data for FY17 and FY16 is presented for comparative purposes.

CITY OF URBANDALE, IOWA
Management's Discussion and Analysis
June 30, 2017

City of Urbandale Net Position						
	Governmental Activities		Business-type Activities		Total	
	2017	2016	2017	2016	2017	2016
Current assets	\$ 94,768,215	87,454,704	2,373,149	1,040,227	97,141,364	88,494,931

Total assets	<u>296,950,233</u>	<u>279,762,404</u>	<u>2,373,149</u>	<u>1,040,227</u>	<u>299,323,382</u>	<u>280,802,631</u>
Deferred outflows of resources	7,311,541	4,014,723	66,196	34,012	7,377,737	4,048,735
Long-term liabilities	79,705,495	69,138,543	193,558	145,897	79,899,053	69,284,440
Other liabilities	15,298,957	15,155,717	24,919	27,437	15,323,876	15,183,154
Total liabilities	<u>95,004,452</u>	<u>84,294,260</u>	<u>218,477</u>	<u>173,334</u>	<u>95,222,929</u>	<u>84,467,594</u>
Deferred inflows of resources	35,524,536	35,028,699	2,411	12,757	35,526,947	35,041,456
Net position						
Net investment in capital assets	155,160,879	140,066,000	—	—	155,160,879	140,066,000
Restricted	30,924,056	29,014,284	—	—	30,924,056	29,014,284
Unrestricted	<u>(12,352,149)</u>	<u>(4,626,116)</u>	<u>2,218,457</u>	<u>888,148</u>	<u>(10,133,692)</u>	<u>(3,737,968)</u>
Total net position	<u>\$ 173,732,786</u>	<u>164,454,168</u>	<u>2,218,457</u>	<u>888,148</u>	<u>175,951,243</u>	<u>165,342,316</u>

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Urbandale, assets exceeded liabilities by \$175,951,243 and \$165,342,316 at the close of FY17 and FY16, respectively.

The largest portion of the City's net position in FY17 (88.2%) reflects its investment in capital assets (e.g. land, buildings, equipment, and infrastructure); less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to residents; therefore they are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The City's investment in capital assets increased by \$15,094,879 from FY16 to FY17.

An additional portion of the City's net position (17.6%) represents resources that are subject to external restrictions on how they may be used. The balance of unrestricted net position is a negative (\$10,133,692). There is a negative unrestricted net position as a result of the GASB 68 pension liability for both IPERS and MFPRSI, which represent the City's share of unfunded liability of the two pension funds. The balance is also attributable to a large portion of the City's 2016 and 2017 bond issuances that were issued to pay for the 100th Street bridge over I-35/I-80 and the related interchange ramps, which will be owned by the State, thus not able to be capitalized as part of net investment in capital assets portion of net position. The business type activity has a positive unrestricted net position. The governmental activities funds have a negative position balance that requires additional future resources to fulfill ongoing obligations to the citizens and creditors of the governmental-type activities. In FY16, restricted assets represented (17.5%) of the City's net position and unrestricted net position totaled \$(3,737,968).

At the end of the current fiscal year, the City is able to report positive balances in the net position for the government as a whole, which comprises its governmental activities and business-type activity. The same situation held true for the prior fiscal year.

CITY OF URBANDALE, IOWA

Management's Discussion and Analysis

June 30, 2017

As noted above, the City's net position, when compared to the FY16 net position balance, increased by \$13,054,257 from FY16 to FY17. This increase can be attributed primarily to the increase in capital projects fund balance due to timing of bond issuance, coupled with the fund balance increase in the TIF fund, which are both included in the restricted net position total.

Changes in Net Position

The following table depicts that change in net Position.

City of Urbandale's Changes in Net Position						
	Governmental Activities		Business-Type Activities		Total	
	2017	2016	2017	2016	2017	2016

Governmental activities

Governmental activities increased the City's net position by \$11,723,948 for FY17. Key elements of the increase in net position are as follows:

- Charges for services had an increase of \$461,656 (8.1%) during FY17. This reflects primarily due to increase in sanitary sewer charges for equipment purchased and reimbursed during the year.
- Operating grants and contributions increased \$503,226 (9.4%) in FY17 due to the increase in road use tax revenues. This increase is from the State's \$0.10 per gallon increase to the Iowa fuel tax in 2015.
- Capital Grants and Contributions increased \$6,918,231 (108.6%) in FY17 due primarily to fluctuation in infrastructure constructed by private parties (e.g. developers) and donated to the City. The value of items can fluctuate based on the timing and number of projects completed in any given year. The donations have increased net position by \$7,809,180 and \$1,491,970 in FY17 and FY16, respectively.

CITY OF URBANDALE, IOWA

Management’s Discussion and Analysis

June 30, 2017

- Total taxes increased by \$2,393,526 (6.9%) during FY17. The receipts for FY17 reflect a 5.44% growth in taxable valuation of property throughout the City, which resulted in an overall property tax increase of \$1,636,076, including state property tax replacement funds (backfill) revenues. The increase was bolstered by additional tax increment financing district revenues collected of \$668,724.
- FY17 showed a transfer of \$475,000 into capital projects fund from the business-type fund, Storm Water Utility. This transfer reflects the movement of funds contributed towards larger storm water projects being built with multiple funding sources.
- A restatement of beginning net position for FY17 was required, and is outlined in the footnotes of this report. The prior reported net position was \$164,454,168. A prior period adjustment is reflected due to a depreciation error, resulting in an adjustment of \$2,445,330 to beginning net position. The FY17 restated net position is \$162,896,986.

Business-type activities

A Storm Water Utility was created in July 2010 as the City’s first enterprise fund. This fund encompasses the activities formerly handled by the City’s street cleaning and storm sewer departments, as well as storm water run-off inspections handled formerly by the engineering department. As the fund has become more established and funding becomes available, more construction projects related to correcting storm water drainage issues throughout the City are being handled. In order to fund these activities, a storm water user fee was established for all businesses and residences in Urbandale. The fee was increase from \$4 to \$6 per ERU/per month for residential properties starting July 1, 2016. Commercial property rates also increased to \$6 for the first 100 ERUs, then at \$5 per ERU over 100. These user fees are the sole source of funding in the charges for services line, generating \$2,236,760 and \$1,472,836 in revenue for FY17 and FY16, respectively. Business-type activities increased the City’s net position by \$888,148 for FY17.

The following charts depict the expenses and program revenues attributed to each budgetary function for fiscal years 2017 and 2016:

CITY OF URBANDALE, IOWA

Management's Discussion and Analysis

June 30, 2017

Financial Analysis of the Government's Funds

The City of Urbandale uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

In FY17 and FY16, the City's governmental funds reported combined fund balances of \$46,968,403 and \$39,724,524, respectively. The fluctuations in fund balance can primarily be attributed to the timing of bond issuances and related capital improvement projects payments from year to year. In addition, the following changes in fund balances should be noted:

- The general fund balance increased by \$202,230 (1.9%) in FY17. The City experienced an overall increase in taxable property value of approximately 5.44% for FY17 which resulted in \$972,996 of additional general levy tax revenue for the year. The charges for services revenue category was \$643,028 higher than FY16 due to sanitary sewer fees, yard waste collections, facility rentals and construction inspection revenues. The higher revenues were mostly offset by increased expenditures in the public safety, public works, culture and recreation and the general government function. These increases were related to the addition of new positions in the police, fire, and finance departments, a city-wide increase per employee for self-funded health insurance costs, and allocation of cost-sharing for a city-wide building security upgrade project.
- The road use tax fund balance increased \$341,752 (9.6%) in FY17. The fund experienced higher road use tax receipts due to an increase of \$0.10 per gallon on the State fuel tax and offset by \$1.38 million in transfers out to capital projects fund to provide funding for various street improvement projects.
- The fund balance for the tax increment financing (TIF) fund increased \$2,151,257 (21.3%) in FY17. This reflects the fifth year of a change in City policy regarding timing for TIF revenue collection. The City has historically only collected TIF revenue as required for annual debt service needs. However, increasing infrastructure construction projects within the existing TIF districts have accelerated City's collection cycle to ensure adequate funding will remain available for future construction and related debt servicing. As TIF supported bonds become callable, TIF funds are being used to call and pay off those bonds instead of refinancing them. Significant outstanding TIF-supported bonds begin being callable in FY18 through FY20, thus reduction of fund balance over the next several years is expected.
- The fund balance of the debt service fund decreased by \$404,236 (53.4%) in FY17. The FY17 decrease is due primarily to refinancing and subsequent payoff of two general obligation capital loan notes during the year.
- For FY17, the \$4,877,737 (34.8%) increase in the capital projects fund balance is primarily attributable to timing of bond issuances and related project payments associated with those projects. The City conducts its annual bond offering in the spring, which results in less time to draw down new bond funds. Project expenditures were down \$5,437,950 from FY16, reflecting the timing of project payments.
- The nonmajor governmental funds fund balance increased \$75,139 (7.6%) due to the increased property taxes received in the police and fire retirement fund, and the corresponding increase in pension costs paid using those funds.

CITY OF URBANDALE, IOWA

Management's Discussion and Analysis

June 30, 2017

Proprietary funds

Unrestricted net position of the proprietary funds was \$7,529,655 and \$6,726,989 in FY17 and FY16, respectively. An additional \$4,028,362 and \$4,120,170 in FY17 and FY16, respectively, of net position was restricted for funds invested in capital assets within the equipment replacement and building maintenance funds. In FY17, the net increase of \$710,858 in net position for the proprietary funds resulted primarily from additional storm water revenue from user fees and by higher allocations from departments for risk management and building maintenance. These revenues were offset by with timing of equipment purchases in the equipment replacement funds, higher claims in the general liability internal service fund, and the timing of repair projects in the building maintenance fund.

Budgetary Highlights (FY17)

Differences between the original budget and the final amended budget amounted to an \$8,209,478 increase in appropriations and can be briefly summarized as follows:

- \$4,135,000 for unbudgeted debt service related to the refunding of general obligation bonds
- \$3,400,000 for higher than anticipated capital projects expense
- \$1,204,739 for transfers out from TIF to debt service and capital projects
- \$159,739 for culture and recreation related expenditures
- \$105,000 for public safety related expenditures
- \$25,000 for storm water utility related expenditures
- \$(820,000) in community and economic development function to reflect reclassification of an expense to a transfer

The revised expenditures were offset by \$3,275,000 in bond proceeds, \$70,000 in intergovernmental revenue, \$15,000 in licenses and permit fees, \$25,000 in additional special assessments, \$35,000 in additional charges for service, \$1,204,739 for offsetting transfers in, \$1,075,000 from miscellaneous revenue and donations, \$1,580,000 in available capital projects fund balance, \$384,739 from available TIF fund balance, \$520,000 from available debt service fund balance, and \$25,000 from storm water utility fund balance. These revenue sources were not anticipated in the adopted fiscal year operating budget.

Including these adjustments, actual disbursements were \$7,159,657 less than final budget amounts. The major factor for this was timing of actual capital project payments. The City did not exceed budgeted expenditures in any of its functions.

On the revenue side, the actual receipts were \$1,112,037 more than budgeted. This was primarily due to timing of federal grant revenue and developer contributions related to various capital projects.

Budget to actual schedule for the City is located on page 63 of this report.

Capital Asset and Debt Administration

Capital assets

In FY17 and FY16, the City had invested \$276,749,656 and \$257,480,941, respectively, in a broad range of capital assets, including land, public buildings and improvements, machinery and equipment, art work, and infrastructure (streets, parks, trails, and traffic safety equipment). This amount represents a net

CITY OF URBANDALE, IOWA

Management’s Discussion and Analysis

June 30, 2017

increase, including additions and deletions, of \$19,268,715 and \$14,498,998, respectively. The value of these capital assets, net of depreciation at June 30, 2017 and 2016, is depicted below.

City of Urbandale's Capital Assets
(net of depreciation)

	Governmental Activities	Governmental Activities
	2017	2016
Land	\$ 6,588,856	6,588,856

Infrastructure	210,554,248	189,035,686
Share of undivided equity interest assets	2,729,094	1,993,439
Construction in progress	6,757,322	12,408,119
Total	\$ 276,749,656	257,480,941
Accumulated depreciation	(74,567,638)	(67,618,571)
	<u>\$ 202,182,018</u>	<u>189,862,370</u>

This year’s major capital asset additions included:

- The donation of construction improvements by private parties (\$7,809,200)
- The completion of the 100th Street pavement project (\$1,981,700)
- The completion of the 100th & NW 54th Street intersection improvement project (\$1,826,000)
- The ongoing construction of the Meredith Drive – 128th to 142nd Street paving project (\$1,364,600)
- The purchase of right-of-way access for Meredith paving between 128th and 170th Streets (\$961,900)
- The completion of the 73rd Street drainage system improvement project (\$952,000)
- The completion of the 156th Street – Meredith to Waterford paving project (\$684,200)
- The completion of the Oakwood Drive Channel box culvert and creek stabilization project (\$563,800)
- The purchase of a replacement fire apparatus (\$462,400)

Additional information on the City’s capital assets can be found on page 37 (footnote 4) of this report.

Long-term debt

In FY17 and FY16 the City had total long-term debt of \$67,425,000 and \$62,575,000, respectively. Of these amounts, \$67,425,000 and \$61,865,000, represented general obligation bond debt.

CITY OF URBANDALE, IOWA

Management's Discussion and Analysis

June 30, 2017

		Balance				Balance
		June 30, 2016	Issued	Retired		June 30, 2017
General obligation bonds	\$	61,865,000	17,565,000	12,005,000	\$	67,425,000
Premium on bonds		-	1,023,544	28,919		994,625
Total bonds payable		61,865,000	18,588,544	12,033,919		68,419,625

Fund capital loan notes		710,000	-	710,000		-
	\$	<u>62,575,000</u>	<u>18,588,544</u>	<u>12,743,919</u>	\$	<u>68,419,625</u>
		Balance				Balance
		June 30, 2015	Issued	Retired		June 30, 2016
General obligation bonds	\$	44,960,000	29,890,000	12,985,000	\$	61,865,000
General obligation General						
Fund capital loan notes		840,000	-	130,000		710,000
	\$	<u>45,800,000</u>	<u>29,890,000</u>	<u>13,115,000</u>	\$	<u>62,575,000</u>

During FY17, the City's total debt increased by a net \$5,844,625, including unamortized bond premiums. The key factors in this net increase were the retirement of \$710,000 in capital loan notes and offset by the issuance of \$17,565,000 in general obligation bonds.

In FY17, the projects funded by the Series 2017 A and B bond issues included:

Construction of:

- 100th Street interchange (TIF)
- Aurora Avenue paving from 109th to railroad (TIF)
- NW 54th Avenue – ½ mile east and 1/3rd mile west of 100th Street (TIF)
- Meredith Drive paving from 128th to 142nd Streets
- 142nd & Douglas Parkway roundabout improvements
- Police station geothermal system expansion and retrofit
- Walker Johnston tennis court lights and partial surface reconstruction
- Grading/earthwork at 170th & Waterford Road
- Community entrance signage – phase 2

Purchase of:

- Design services for Parks/PW maintenance facility at 9401 Hickman (TIF)
- Traffic signal preemption project reimbursement
- Various public art projects throughout the City of Urbandale

Refunding of existing bonds and notes:

- Series 2009B Build America GO bonds, remaining balance of \$2,700,000
- Series 2006B General fund capital loan note, remaining balance of \$490,000
- Series 2007 General fund capital loan note, remaining balance of \$85,000

The City of Urbandale maintains an Aa1 rating from Moody's Investors Service for its general obligation debt. This rating was most recently affirmed on April 13, 2017.

CITY OF URBANDALE, IOWA

Management's Discussion and Analysis

June 30, 2017

State statutes limit the amount of debt that a governmental entity may issue to 5% of the actual value of property within the corporate limits. The current maximum debt limitation for the City of Urbandale is \$223,826,374, which is in excess of the City's current outstanding debt. Additional information on the City's long-term debt can be found in note 5 on pages 38 through 42 of this report.

Economic Factors and Next Year's Budget and Rates

Urbandale continues to have a significant land supply remaining for residential growth in new neighborhoods west of Interstates 35/80, and is currently exploring the possibility of annexing additional territory. Most of the growth areas within the Corporate Limits are already served by City infrastructure. As of June 30, 2017, three subdivision plats that will add 111 single-family homes had been approved and were under development, however three additional preliminary plats had been approved that will add another 137 single-family lots, along with two site plans for 120 multi-family units. Nine new subdivision plats were approved in 2016 creating a total of 252 lots. Seven new subdivisions were approved in 2015 creating a total of 342 lots, and five new subdivisions were approved in 2014 creating a total of 162 new lots.

Through June 30, 2017 permits had been issued for 91 new single-family homes and 4 single-family attached (townhomes) units. In 2016 a total of 158 new single-family homes were constructed. In 2015, a total of 181 new single-family homes were constructed, along with 16 townhomes and 84 multi-family units. In 2014, a total of 156 new single-family homes were constructed, down from 303 new single-family homes that were built in 2013. However, 2013's total was the 6th highest in the City's history. A total of 120 apartment units were also constructed in 2014, which is the largest number of multi-family units to be constructed since 2006.

Urbandale also has a sufficient land supply to support continued commercial and industrial growth for at least the next 20 to 40 years, depending on the sector and historic trend line selected. An average of 227,721 square feet of commercial and industrial space has been constructed annually in Urbandale over the past five years.

Construction permitted through June 2017 totals 207,115 square feet of new commercial development, bolstered in part by a new 96,150 square foot elementary school in the Waukee School District, and a 65,918 square foot addition for Van Meter Inc. In addition, the City has approved site plans for an additional 184,566 square feet of commercial and industrial projects that are expected to be permitted yet in 2017, or early in 2018. Construction in 2016 totaled only 83,245 square feet of retail, office and industrial projects. However, construction in 2015 totaled 250,504 square feet, and construction in 2014 totaled 131,459 square feet.

The Interchange Justification Report for the 100th Street Interchange was approved by the Federal Highway Administration, and the reconstruction of 100th Street, including a new bridge over Interstate 35/80 is complete. The grading for the Interchange ramps is nearing completion, and paving of the ramps will occur in 2018. The new Interchange will lead to access/functionality improvements to the Interchanges and Urbandale's economic development corridors.

All of these factors were considered in preparing the City of Urbandale's budget for fiscal year 2018. The fiscal year 2018 budget anticipated an increase of \$1,623,208 (3.9%) in operating expenditures over the fiscal year 2017 adopted budget. The adopted expenditures and anticipated revenues for fiscal year 2018 resulted in the need to increase the general tax levy rate by 7 cents from \$7.17 to \$7.24. In response to

CITY OF URBANDALE, IOWA

Management's Discussion and Analysis

June 30, 2017

growing pension costs for the City's public safety uniformed staff, an additional \$0.01 was added to the police & fire pension levy that was originally adopted in FY10 to fund the City's pension contribution to the Municipal Fire and Police Retirement System, thus raising that levy to \$0.58. Additionally, the debt service levy rate increased by \$0.02 to \$2.20. The City's combined tax levy rate is \$10.02/\$1,000 valuation, which represents a total of 10 cents more than FY17.

For the FY18 budget, the property tax changes approved by the State legislature in 2013 will continue to affect valuations and resulting property tax revenue the City relies on to fund a majority of its operations. Under the approved State legislature changes, the rollback for Commercial and Industrial properties decreased 5% annually affecting taxes payable in 2014 and 2015, and has stabilized thereafter at 90% of the assessed value. The State promised to backfill this lost valuation revenue to cities at 100% for 2 years, then the backfill was capped at FY2016-17 levels. The backfill will continue each future year unless the legislature takes action to remove the standing appropriation.

Despite the 10% rollback on commercial property, the City still saw overall taxable valuation growth of 4.46% for FY18. Other factors impacting the FY18 budget include the continued improvement of local economic conditions spurring construction permit growth, the continued financing of infrastructure maintenance and improvement projects, the addition of 11 full-time positions, the introduction of new technologies in a number of departments, and operating equipment purchases in several departments.

Contacting the City's Financial Management

This financial report is designed to provide citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, please contact the City Manager's Office, 3600 86th Street, Urbandale, Iowa, 50322.

CITY OF URBANDALE, IOWA

Reconciliation of the Balance Sheet - Governmental Funds
to the Statement of Net Position

June 30, 2017

Amounts reported for governmental activities in the statement of net position are different because:

Total fund balances – governmental funds		\$ 46,968,403
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in Governmental funds:		
Capital assets	\$ 268,432,253	
Less accumulated depreciation	<u>(70,278,597)</u>	198,153,656
Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the governmental funds		2,249,494
Debt issuance-related premiums are reported as "other financing sources" in the governmental funds, but as unamortized liabilities in the statement of net position		(994,625)
Pension related deferred outflows of resources and deferred inflows of resources are not due and payable in the current year and, therefore, are not reported in the governmental funds, as follows:		
Deferred outflows of resources	7,268,708	
Deferred inflows of resources	<u>(261,771)</u>	7,006,937
Internal service funds are used by management to charge the costs of equipment replacement, technology, building maintenance, general liability insurance, and the risk management program to the individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.		
Cash	5,597,679	
Due from customers	496,625	
Capital assets, net of accumulated depreciation	4,028,362	
Deferred outflows - pension	42,833	
Deferred inflows of resources - pension	(1,560)	
Net pension liability	(125,243)	
Accounts payable	<u>(699,136)</u>	9,339,560
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds.		
General obligation bonds payable	67,425,000	
Accrued interest on the bonds and notes	151,660	
Other postemployment benefits	1,449,331	
Net pension liability	18,906,193	
Compensated absences	<u>1,058,455</u>	<u>(88,990,639)</u>
Net position of governmental activities		\$ <u><u>173,732,786</u></u>

See accompanying notes to financial statements.

CITY OF URBANDALE, IOWA

Reconciliation of the Statement of Revenues, Expenditures,
and Changes in Fund Balances - Governmental Funds to the Statement of Activities

Year ended June 30, 2017

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances – governmental funds	\$	7,243,879
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities, those costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expenses in the statement of activities.		
Capital outlays	\$ 18,622,747	
Depreciation expense	<u>(6,795,575)</u>	11,827,172
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, and donations) is to decrease net position.		584,285
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.		(583,877)
In the statement of activities, certain operating expenses are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (the amount actually paid). The current year differences are:		
Compensated absences - Sick leave and vacation	(51,166)	
Other postemployment benefits	<u>(309,353)</u>	(360,519)
The net effect of pension related activity, consisting of employer contributions which are reported as expenditures in the governmental funds, but reported as a deferred outflow of resources in the Statement of Net Position, and the pension expenses reported in the Statement of Activities that do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		(506,382)
Repayment of bond principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the statement of net position and does not affect the statement of activities.		12,715,000
Issuance of bond principal is an “other financing source” in the governmental funds, but it increases long-term liabilities in the statement of net position and does not affect the statement of activities.		(18,588,544)
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however interest expense is recognized as the interest accrues, regardless of when it is due.		(16,534)
Bond issuance-related premiums/discounts are reported as “other financing uses” and expenditures in the governmental funds at the time of issuance in the government-wide financial statements, these costs are amortized over the life of the debt issue.		28,919
An internal service fund is used by the City's management to charge the costs of equipment replacement, technology, general liability insurance, building maintenance and the risk management program to the individual funds. The net loss of the internal service funds is reported with governmental activities.		<u>(619,451)</u>
Change in net position of governmental activities	\$	<u><u>11,723,948</u></u>

See accompanying notes to financial statements.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

(1) Summary of Significant Accounting Policies

The following is a summary of significant accounting policies employed in the preparation of these financial statements.

(a) The Financial Reporting Entity

The City of Urbandale, Iowa, (the City) is located in Polk County and was incorporated in 1917 under the laws of the state of Iowa (the State), later amended in July 1975 under the Home Rule City Act. The City operates by ordinance under the mayor-council-manager form of government and provides such services as are authorized by its charter to advance the welfare, health, comfort, safety, and convenience of the City and its inhabitants.

In accordance with the *Codification of Governmental Accounting and Financial Reporting Standards*, the basic financial statements include all funds, organizations, agencies, boards, commissions, and authorities for which the City is financially accountable. The reporting entity includes those of the City of Urbandale (the Primary Government) and its Component Unit. The City has also considered all other potential organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the City to impose its will on that organization or (2) the potential for that organization to provide specific benefits to or impose specific financial burdens on the City. The Urbandale Water Utility meets each of these financial accountability criteria. Based on these criteria, there are no organizations or agencies other than the Water Utility which should be included in these basic financial statements.

(b) Discretely Presented Component Unit

The Water Utility column in the financial statements presents the financial data of the Urbandale Water Utility (the Water Utility). The Water Utility is governed by a three-member board appointed by the City Council (the Council), and the Water Utility's operating budget is subject to the approval of the Council. Accordingly, financial accountability, as defined in the preceding paragraph, exists and the Water Utility is presented in the reporting entity, although it is legally separate from the City. The Water Utility provides water service exclusively to the citizens of Urbandale on behalf of the City. Complete financial statements of the Water Utility can be obtained directly from its administrative office at the following address:

Urbandale Water Utility
3720 86th Street
Urbandale, Iowa 50322

(c) Measurement Focus, Basis of Accounting and Basis of Presentation

Under GASB 34, the annual financial report includes two separate sets of statements, the government-wide financial statements and the fund financial statements. The measurement focus, basis of accounting and basis of presentation differ between the government-wide financial statements and the

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

fund financial statements. These differences, along with an explanation of the differing purposes and information provided by these separate financial statements, are described in the sections below.

Government-wide Financial Statements – The government-wide financial statements use the *economic resources measurement focus* and the *accrual basis of accounting*. The economic resources measurement focus results in the reporting of all inflows, outflows, and balances affecting or reflecting the fund net position. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Any interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which are supported by property tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for services. The structure of the government-wide financial statements is described in the following two paragraphs.

Statement of Net Position – presents the City’s nonfiduciary assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories.

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position not meeting the definition of the two preceding categories. Unrestricted net position often has constraints on resources imposed by management which can be removed or modified.

When both restricted and unrestricted resources are available for use, it is the City’s policy to use restricted resources first, then unrestricted resources as they are needed.

The Statement of Activities – demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements - The accounts of the City are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. Separate financial statements are

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

Governmental Funds

Governmental Fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. The current financial resources measurement focus results in the reporting of only near-term (current) inflows, outflows, and balances of expendable (spendable) financial resources. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are “measurable and available”). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers property tax revenues to be available if they are collected within 60 days after year-end. Other revenues are considered to be available if they are expected to be received within 60 days. Expenditures are recorded when the related fund liability is incurred, except for unmatured interest on general long-term debt which is recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes, investment earnings, and charges for services. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. Fines, forfeitures, licenses, and permit revenues are recorded when the City receives cash because they are generally not measurable until actually received. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met as long as they have met the available and measurable criteria.

Property tax receivable is recognized in these funds on the levy or lien date, which is March 15 of each year, the date the tax asking is certified by the City to the County Board of Supervisors. Current year property tax receivable represents taxes collected by the County but not remitted to the City at June 30, 2017 and unpaid taxes. The succeeding year property tax receivable represents taxes certified by the City to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the City is required to certify its budget to the County Auditor by March 15 of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied. Delinquent property taxes are not material and are not recorded as receivables.

Property tax revenues recognized in these funds become due and collectible in September and March of the current fiscal year with a 1½% per month penalty for delinquent payments; is based on January 1, 2015 assessed property valuations; is for the tax accrual period July 1, 2016 through June 30, 2017 and reflects tax asking contained in the budget certified to the County Board of Supervisors in March 2016.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

The City reports the following major governmental funds:

General Fund – used to account for the general operations of the City. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. Many of the more important activities of the City, including operation of the City’s general service departments, street and highway maintenance, public safety, sanitation, parks, library, and recreation programs, are accounted for in this fund.

Road Use Tax Fund – utilized to account for the operations of street maintenance. Financing is provided by the City’s share of state gasoline taxes, which are received on a per capita basis. State law requires these revenues to be received and disbursed in a special revenue fund.

Tax Increment Financing Fund – used to account for revenues from the tax authorized by ordinance in the urban renewal district and used to pay the principal and interest on the general obligation capital loan notes and other indebtedness incurred for urban renewal redevelopment projects.

Debt Service Fund – utilized to account for the funding and payment of interest and principal of general obligation debt of the City.

Capital Projects Fund – used to account for all resources used in the acquisition and construction of capital facilities and other capital assets, with the exception of those that are financed through internal service funds.

Proprietary Funds

The proprietary funds are used to account for a government’s ongoing operations and activities which are similar to those often found in the private sector. The proprietary funds use the *economic resources measurement focus* and the *accrual basis of accounting*. The economic resources measurement focus results in the reporting of all inflows, outflows, and balances affecting or reflecting the fund net position. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Proprietary funds distinguish operating revenues and expenses from non-operating items.

Operating revenues and expenses generally result from providing services in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues of the proprietary funds are charges for services. Operating expenses include the cost of services and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. The following comprises the City’s proprietary funds, none of which are designated as major funds:

General Liability Fund – an internal service fund utilized to finance and account for the City’s property and casualty and workers compensation insurance transactions.

Risk Management Fund – an internal service fund utilized to finance and account for the transactions related to the City’s dental, life, long-term disability and self-insured employee health insurance plans.

Equipment Replacement Fund – an internal service fund utilized to finance and account for the acquisition of capital assets for designated departments within the City.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

Building Maintenance Fund – an internal service fund utilized to finance and account for the various non-routine maintenance and large-scale repair activities associated with any City-owned buildings within the City.

Technology Fund – an internal service fund utilized to finance and account for the acquisition of major technology-related capital assets that are not funded through the Capital Projects or Equipment Replacement funds.

Storm Water Utility Fund – an enterprise fund utilized to account for the operations and maintenance of the City’s storm water program and improvements to the storm water system that are not funded through the Capital Projects fund.

Fiduciary Funds

The fiduciary funds are used to account for assets held as an agent for others in an agency capacity. The agency funds are custodial in nature and do not present results of operations. The funds are accounted for using the accrual basis of accounting, with no measurement focus. The City has the following fiduciary funds:

Collections and Deposits Fund– an agency fund utilized to finance and account for refundable deposits and other flow-through funds collected by the City to be paid out to another party.

Escrow Fund – an agency fund utilized to finance and account for refundable escrows from developers for capital improvement projects.

(d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from these estimates.

(e) Encumbrances

The fund balances in the governmental funds are charged for encumbrances when commitments are made. Fund balances are reserved for outstanding encumbrances, because the City intends to honor these purchase commitments. The City does not treat encumbrances as expenditures for GAAP purposes.

(f) Fund Balance

In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable – Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

Restricted – Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed – Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the City Council through ordinance or resolution approved prior to year-end. Those committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same action, ordinance or resolution, which it originally employed to commit those amounts.

Assigned – Amounts which the City intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. These amounts are designated by City Council through informal processes, such as by City policy.

Unassigned – All amounts not included in other spendable classifications.

When expenditures are incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When expenditures are incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless City Council has provided otherwise in its commitment or assignment actions.

(g) Components of Governmental Fund Balance

As of June 30, 2017, fund balances are composed of the following:

	General	Debt Service	Capital Projects	Special Revenues	Total
Nonspendable:					
Inventory	\$ 14,050	-	-	223,050	237,100
Restricted for:					
Debt service	-	353,312	-	12,245,798	12,599,110
Public works	-	-	-	3,685,494	3,685,494
Capital projects	-	-	18,898,386	-	18,898,386
Public safety retirement	-	-	-	79,176	79,176
Police activities	-	-	-	49,151	49,151
Fire activities	-	-	-	25,600	25,600
Cultural programs	-	-	-	226,064	226,064
Parks activities	-	-	-	36,733	36,733
Recreational programs	-	-	-	236,478	236,478
Total restricted	\$ -	353,312	18,898,386	16,584,494	35,836,192
Committed for:					
Economic development	-	-	-	409,924	409,924
Assigned to:					
Capital projects	-	-	8,503	-	8,503
Unassigned	10,476,684	-	-	-	10,476,684
Total Fund Balances	\$ 10,490,734	353,312	18,906,889	17,217,468	46,968,403

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

(h) Cash and Pooled Cash Investments

Except for the Water Utility, the City maintains a cash and investment pool that is available for use by all funds. The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with maturities of three months or less from the date of acquisition. These pooled deposits are invested on a short-term basis, and interest income is generally allocated to each participating fund based upon the percentage of its average balance.

For purposes of the statement of cash flows, the proprietary funds consider all investments with a maturity of three months or less when purchased to be cash equivalents.

Cash equivalents of the Water Utility include a money market account and an investment in the Iowa Public Agency Investment Trust (IPAIT), which is valued at amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940, and is not subject to risk categorization. IPAIT was established under Iowa law to authorize cities, counties, and municipal utilities to jointly invest. IPAIT invests only in permitted investments as specified for public agencies by Iowa law. The board of trustees of IPAIT meets quarterly to monitor investment compliance and performance.

(i) Inventories

Inventories of materials and supplies are valued at average cost. Inventories are recorded as expenditure at the time of consumption.

(j) Unbilled Revenues

Utilizing the first billing subsequent to year-end, the Water Utility accrues unbilled revenues for services rendered subsequent to the last billing date and prior to year-end based upon the number of days unbilled.

(k) Capital Assets

Capital assets, which include real property, equipment and vehicles, artwork, buildings, infrastructure assets (e.g. roads, bridges, curbs, gutters, sidewalks and similar items which are immovable and of value only to the government), and the City's share of assets in an undivided equity interest, are reported in the governmental activities column in the government-wide Statement of Net Position and in the Proprietary Funds Statement of Net Position. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value. Acquisition value is the price that would have been paid to acquire a capital asset with equivalent service potential. The costs of normal maintenance and repair not adding to the value of the asset or materially extending asset lives are not capitalized. Reportable capital assets, other than intangible assets, are defined by the City as assets with initial, individual costs in excess of \$2,000 and estimated useful lives in excess of one year. The City defines intangible assets as those items with costs in excess of \$100,000.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

Capital assets are depreciated using the straight-line method over their estimated useful lives. Capital assets not being depreciated include land and construction in progress. Depreciation has been provided using the straight-line method over the following estimated useful lives:

	<u>Years</u>
Building	40 - 50
Improvements other than buildings	5 - 30
Vehicles and equipment	3 - 20
Distribution system	50
Artwork	20
Infrastructure	10 - 65
Share of undivided equity interest assets	5 - 15

(l) Deferred Outflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the employer after the measurement date, but before the end of the employer's reporting period.

(m) Deferred Inflows of Resources

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current period, or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since it is not available. Deferred inflows of resources at the governmental fund level consist of the succeeding year property tax receivable, and other receivables not collected within sixty days after year-end.

Deferred inflows of resources in the Statement of Net Position consist of succeeding year property tax receivable that will not be recognized as revenue until the year for which they are levied, the unamortized portion of the net difference between projected and actual earnings on pension plan investments, and other unrecognized items not yet charged to pension expense.

(n) Long-Term Debt

In the government-wide financial statements, long-term debt obligations are reported as liabilities in the statement of net position. If deemed material, bonds payable are reported net of the applicable bond premium or discount.

Governmental funds recognize bond premiums and discounts, as well as bond issuance costs, in the period issued. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources and discounts on debt issuances are reported as other financing uses. Issuance costs, even if withheld from the actual net proceeds

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

received, are reported as expenditures. Interest is reported as expenditure in the period in which the related payment is made.

(o) Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's two pension systems, and additions to/deductions from the pensions' fiduciary net position have been determined on the same basis as they are reported by each respective pension system.

For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(p) Compensated Absences

City employees accumulate vacation and sick leave hours for subsequent use or for payment upon termination, death, or retirement. Accumulated vacation and sick leave is reported as an expense and an accrued liability as the benefits accrue to employees in the government-wide financial statements as well as in the Water Utility. An estimate for the amount due in one year is reported as a current liability, and reflects management's best estimate of anticipated use of these types of leave hours in the next year, based on a 3 year trend. A liability for these amounts is reported in the governmental funds only if benefits have matured as a result of employee resignations and retirements.

(q) Self-insurance

The City is partially self-insuring for employee health insurance through stop-loss insurance, which provides coverage for claims in excess of \$50,000 per employee and \$3,853,355 in the aggregate for June 30, 2017. The operating funds are charged premiums (based upon historical claim experience) by the Risk Management Fund, which is accounted for as an Internal Service Fund. The accrued liability for estimated claims represents an estimate of the eventual loss on claims arising prior to year-end, including claims incurred but not yet reported, and is classified with accounts payable.

The table below presents the changes in claim liabilities for the past two fiscal years for the City's employee health insurance.

	2017	2016
Unpaid claims and claim adjustment expenses at beginning of the fiscal year	\$ 200,000	275,000
Incurred claims and claim adjustment expenses	3,024,250	1,891,391
Payments	(2,729,250)	(1,966,391)
Total unpaid claims and claim adjustment expenses at end of the fiscal year	\$ 495,000	200,000

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

(2) Cash and Pooled Cash Investments and Cash Equivalents

The City's and its Component Unit's deposits at June 30, 2017 were entirely covered by federal depository insurance, collateralized with securities or letters of credit held by the City or the City's agent in the City's name, or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to ensure there will be no loss of public funds.

The investment interest income of the Road Use Tax Fund has been assigned to the City's General Fund.

The City is authorized by state statute to invest public funds in interest bearing savings, money market, or checking accounts at a bank, savings and loan association or credit union in the State of Iowa that is approved by the Council and the Treasurer of the State of Iowa, in obligations of the United States government, its agencies, and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Council and the Treasurer of the State of Iowa; The Iowa Public Agency Investment Trust (IPAIT), perfected repurchase agreements; and certain registered open-end management investment companies.

Certificates of deposit and money market accounts are classified as cash and pooled cash investments in the financial statements and are included with bank deposits in this note. The cash equivalents of the City's non-fiduciary funds at June 30, 2017 are \$56,263,603. The City's agency funds had cash and pooled cash investments of \$1,162,695 at June 30, 2017.

The City had no investments meeting the disclosure requirements of Governmental Accounting Standard Board Statement No. 72.

At June 30, 2017 cash and cash equivalents balance of the Water Utility include a money market account of \$3,674,400 and an investment in the Iowa Public Agency Investment Trust (IPAIT) \$136,698, which is valued at amortized cost pursuant to Rule 2a-7 under the Investment Company Act of 1940. The IPAIT pool is unrated. Additionally, there is one Certificate of Deposit in the amount of \$170,749 and checking accounts with \$155,075 as of June 30, 2017.

Interest rate risk. The City's investment policy limits the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in investments with maturities longer than 397 days but the maturities shall be consistent with the needs and use of the City.

Credit risk. The City's investment policy prohibits investments in commercial paper and other corporate debt. The Water Utility's investment in Iowa Public Agency Investment Trust is unrated. IPAIT was established under Iowa law to authorize cities, counties, and municipal utilities to jointly invest. IPAIT invests only in permitted investments as specified for public agencies by Iowa law. The board of trustees of IPAIT meets quarterly to monitor investment compliance and performance. All other investments held by the City at June 30, 2017 are in certificates of deposit, money market accounts, money market mutual funds, and obligations of the United States government held with depository institutions approved by the Council.

CITY OF URBAN DALE, IOWA

Notes to Financial Statements

June 30, 2017

Concentration of credit risk. The City places dollar limits, currently \$30 million, on the amount that may be invested in any one approved depository institution. The City also has a diversification policy to reduce risk of loss resulting from over concentration of assets in a specific maturity, a specific issue, or a specific class of securities.

Custodial credit risk - deposits. This is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City's deposits and investments held at year end are entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City held no such investments during the year.

(3) Restricted Assets

Customer deposits, a sinking fund and a reserve fund as defined by the Water Utility's water revenue bond covenants are separately disclosed in the balance sheet of the Water Utility.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

(5) Long-Term Obligations

(a) Refunding of General Obligation Bonds

In April of 2017, the City issued General Obligation bonds that included \$3,275,000 for the current refunding of the Series 2006B and Series 2007 General Obligation Capital Loan Notes, and the 2009 Build America General Obligation bonds. The refunding was undertaken to capture the benefits of a lower interest rate environment to reduce future debt service interest payments. The maturity schedule and principal payments of the new debt exactly mirror the schedules of the debt being refunded. The transaction did not result in any material deferred outflow or deferred inflows, thus none were recorded. The transaction resulted in a net economic gain of \$127,863 due to lower interest costs. The total difference in debt service between the issuances was \$171,867.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

(b) General Obligation Bonds

Details of general obligation bonds payable at June 30, 2017 are as follows:

	<u>Date of Issue</u>	<u>Interest Rates</u>	<u>Final Due Date</u>	<u>Annual Principal Payments</u>	<u>Amount Originally Issued</u>	<u>Amount Outstanding 6/30/17</u>

Notes to Financial Statements

June 30, 2017

(d) Water Revenue Refunding Capital Loan Notes

On June 1, 2015, the Water Utility issued \$1,963,000 in Water Revenue Refunding Capital Loan Notes. Interest is payable each December 1 and June 1 at a rate of 1.99% Principal payments are due each June 1 and range from \$201,000 to \$236,000 with final maturity in 2024. The proceeds were used to refund outstanding 2005 Water Revenue Bonds which had an interest rate of 3.90%. At June 30, 2017 the restricted cash on the balance sheet includes \$20,387 in the Sinking Fund.

The reacquisition price was less than the net carrying amount of the old debt by \$312,000. This amount was funded by the Utility through the 2005 Reserve Fund in the amount of \$311,700 and the General Fund in the amount of \$300. The Utility refunded the 2005 Water Revenue Bonds to reduce its total debt service payments over 9 years by \$579,922. The refunding of the 2005 Water Revenue Bond issue resulted in an economic gain of \$525,924.

The annual principal and interest requirements to maturity for the Water Utility's water revenue capital loan note at June 30, 2017 are as follows:

Years Ending	Water Revenue Refunding Capital Loan Note	
	Principal	Interest
June 30,		
2018	\$ 209,000	30,984
2019	214,000	26,825
2020	218,000	22,567
2021	222,000	18,228
2021	227,000	13,811
2023-2024	467,000	13,990
	<u>\$ 1,557,000</u>	<u>126,405</u>

(e) Drinking Water State Revolving Fund

The Water Utility applied for and received a capital loan note from the Drinking Water State Revolving Fund on February 17, 2010 in the amount of \$1,671,000. The funds are to be used solely for a meter replacement project and funds are disbursed from the Iowa Finance Authority. The first \$332,000 disbursed to the Utility represents the forgivable portion of the loan. The remaining \$1,339,000 disbursed will be repaid semi-annually over a 20 year period. A loan servicing fee is payable each June 1 at a rate of .25% of the principal amount of the loan outstanding. Interest is payable each December 1 and June 1 at a rate of 3.0%. Principal payments are due each June 1, and range from \$49,000 to \$89,000 with final maturity in 2031. At June 30, 2017 the restricted cash on the balance sheet includes \$22,839 in the Sinking Fund.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

Principal and interest requirements to maturity for obligations at June 30, 2016 are as follows:

Years Ending	SRF Capital Loan	
June 30,	Principal	Interest
2018	\$ 59,000	30,690
2019	61,000	28,920
2020	63,000	27,090
2021	65,000	25,200
2022	67,000	23,250

	<u>\$ 1,023,000</u>	<u>245,850</u>

(f) Water Revenue Capital Loan Notes

On December 4, 2012 the Urbandale Water Utility issued \$2,285,000 in Taxable Water Revenue Capital Loan Notes. The notes were issued for system improvements and land acquisitions. Interest is payable semi-annually, each December 1 and June 1, at 3.59%. Principal payments are due June 1 of each year starting in 2015, and range from \$85,000 - \$160,000, with the final maturity in 2033. At June 30, 2017 the restricted cash balance sheet includes \$14,689 in the Sinking Fund and \$170,749 in the Reserve Fund.

Principal and interest requirements to maturity for obligations at June 30, 2017 are as follows:

Ending	Water Revenue Capital Loan	
June 30,	Principal	Interest
2018	\$ 95,000	72,339
2019	100,000	68,928

(6) Retirement Plans

The primary government participates in two public pension systems, Iowa Public Employees' Retirement System (IPERS) and Municipal Fire and Police Retirement System of Iowa (MFPRSI). The component unit Water Utility participates in IPERS only. The following sections outline the pension related disclosures for each pension of both entities. The aggregate amount of recognized pension expense for the period associated with the net pension liability for all plans for is \$2,793,893 for the primary government and \$111,365 for the Water Utility. Other aggregate amounts related to pension are separately displayed in the financial statements.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

(a) Iowa Public Employees' Retirement System - IPERS

Plan Description – IPERS membership is mandatory for employees of the City and the Water Utility, except for those covered by another retirement system. Throughout this IPERS disclosure, all references to the City will incorporate both the City and the Water Utility, unless otherwise noted.

Employees of the City are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by IPERS. IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive, P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits – A regular member may retire at normal retirement age and receive monthly benefits without an early retirement deduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. (These qualifications must be met on the member's first month of entitlement to benefits.) Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier (based on years of service).
- The member's highest five-year average salary. (For members with service before June 30, 2012, the highest three-year average salary as of that date will be used if it is greater than the highest five-year average salary.)

Protection occupation members may retire at normal retirement age which is generally at age 55. The formula used to calculate a protection occupation members' monthly IPERS benefit includes:

- 60% of average salary after completion of 22 years of service, plus an additional 1.5% of average salary for years of service greater than 22 but not more than 30 years of service.
- The member's highest three-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50% for each month that the member receives benefits before age 65.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefits or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. Statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2017, pursuant to the required rate, Regular members contributed 5.95% of pay and the City contributed 8.93% for a total rate of 14.88%. Protective occupation members contributed 6.56% of pay and the City contributed 9.84% for a total rate of 16.40%.

The City's total contributions to IPERS for the year ended June 30, 2017 were \$776,981. The Water Utility's total contributions to IPERS for the year ended June 30, 2017 were \$112,589.

There were no non-employer contributing entities to IPERS.

Actuarial Assumptions – The total pension liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of inflation (effective June 30, 2014)	3.00 percent per annum
Rates of salary increase (effective June 30, 2010)	4.00 to 17.00 percent, average, including inflation. Rates vary by membership group.
Long-term Investment rate of return (effective June 30, 1996)	7.50 percent, compounded annually, net of investment expense, including inflation
Wage growth (effective June 30, 1990)	4.00 percent per annum based on 3.00 percent Inflation and 1.00 percent real wage inflation

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Mortality rates were based on the RP-2000 Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting and expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Asset Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Core Plus Fixed Income	28%	1.90%
Domestic equity	24	5.85
International equity	16	6.32
Private equity/debt	11	10.31
Real estate	8	3.87
Credit opportunities	5	4.48
U.S. TIPS	5	1.36
Other real assets	2	6.42
Cash	1	(0.26)
	<u>100%</u>	

Discount Rate – The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that employee contributions from the City will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position – Detailed information about the pension plan’s fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS’ website at www.ipers.org.

City Specific IPERS Disclosures

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2017, the City reported a liability of \$7,116,097 for its proportionate share of the net pension liability. The new pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

valuation as of that date. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2016, the City's collective proportion was 0.113074% which was an increase of 0.005297% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the City recognized pension expense of \$999,106. At June 30, 2017, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	\$ 62,783	\$ 88,937
Changes of assumptions	108,381	54
Net difference between projected and actual earnings on pension plan investments	1,041,167	-
Changes in proportion and differences between City contributions and proportionate share of contributions	-	-
City contributions subsequent to the measurement date	444,367	(338)
	<u>776,981</u>	<u>-</u>
Total	<u>\$ 2,433,679</u>	<u>\$ 88,653</u>

The \$776,981 reported as deferred outflows of resources related to pensions resulting from the City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended	
June 30,	Total
2018	\$ 277,296
2019	277,296
2020	634,738
2021	366,951
2022	<u>11,764</u>
	<u>\$ 1,568,045</u>

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate.

CITY OF URBAN DALE, IOWA

Notes to Financial Statements

June 30, 2017

	1% Decrease (6.5%)	Discount Rate (7.5%)	1% Increase (8.5%)
City's proportionate share of the net pension liability:	11,614,168	7,116,097	3,319,803

Payable to the Pension Plan – At June 30, 2017, the City reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

Water Utility Specific IPERS Disclosures

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2017, the Water Utility reported a liability of \$1,072,327 for its proportionate share of the net pension liability. The new pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Water Utility’s proportion of the net pension liability was based on the Water Utility’s share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2016, the Water Utility’s collective proportion was 0.017039% which was an increase of 0.000023% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the Water Utility recognized pension expense of \$111,365. At June 30, 2017, the Water Utility reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual results	\$ 9,478	\$ -
Changes of assumptions	16,360	-
Net difference between projected and actual earnings on pension plan investments	152,773	12,798
Changes in proportion and differences between Utility contributions and proportionate share of contributions	-	33,959
Utility contributions subsequent to the measurement date	112,589	-
Total	\$ 291,200	\$ 46,757

The \$112,589 reported as deferred outflows of resources related to pensions resulting from the Water Utility contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	<u>1% Decrease (6.5%)</u>	<u>Discount Rate (7.5%)</u>	<u>1% Increase (8.5%)</u>
Utility's proportionate share of the net pension liability:	1,734,880	1,072,327	513,124

Payable to the Pension Plan – At June 30, 2017, the Utility reported payables to the defined benefit pension plan of \$8,655 for legally required employer contributions and \$5,767 for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

(b) *Municipal Fire and Police Retirement System of Iowa – MFPRSI*

Plan Description – MFPRSI membership is mandatory for fire fighters and police officers covered by provisions of Chapter 411 of the Code of Iowa. Employees of the City are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by MFPRSI. MFPRSI issues a stand-alone financial report which is available to the public by mail at 7155 Lake Drive, Suite 201, West Des Moines, Iowa 50366 or at www.mfprsi.org.

MFPRSI benefits are established under Chapter 411 of the Code of Iowa and the administrative rules thereunder. Chapter 411 of the Code of Iowa and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits – Members with 4 or more years of service are entitled to pension benefits beginning at age 55. Full service retirement benefits are granted to members with 22 years of service, while partial benefits are available to those members with 4 to 22 years of service based on the ratio of years completed to years required (i.e., 22 years). Members with less than 4 years

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

of service are entitled to a refund of their contribution only, with interest, for the period of employment.

Benefits are calculated based upon the member's highest 3 years of compensation. The average of these 3 years becomes the member's average final compensation. The base benefit is 66% of the member's average final compensation. Additional benefits are available to members who perform more than 22 years of service (2% for each additional year of service, up to a maximum of 8 years). Survivor benefits are available to the beneficiary of a retired member according to the provisions of the benefit option chosen, plus an additional benefit for each child. Survivor benefits are subject to a minimum benefit for those members who chose the basic benefit with a 50% surviving spouse benefit.

Active members, at least 55 years of age, with 22 or more years of service have the option to participate in the Deferred Retirement Option Program (DROP). The DROP is an arrangement whereby a member who is otherwise eligible to retire and commence benefits opts to continue to work. A member can elect a 3, 4, or 5 year DROP period. By electing to participate in DROP the member is signing a contract indicating the member will retire at the end of the selected DROP period. During the DROP period the member's retirement benefit is frozen and a DROP benefit is credited to a DROP account established for the member. Assuming the member completes the DROP period, the DROP benefit is equal to 52% of the member's retirement benefit at the member's earliest date eligible and 100% if the member delays enrollment for 24 months. At the member's actual date of retirement the member's DROP account will be distributed to the member in the form of a lump sum or rollover to an eligible plan.

Disability and Death Benefits – Disability benefits may be either accidental or ordinary. Accidental disability is defined as permanent disability incurred in the line of duty, with benefits equivalent to the greater of 60% of the member's average final compensation or the member's service retirement benefit calculation amount. Ordinary disability occurs outside the call of duty and pays benefits equivalent to the greater of 50% of the member's average final compensation, for those with 5 or more years of service, or the member's service retirement benefit calculation amount, and 25% of average final compensation for those with less than 5 years of service.

Death benefits are similar to disability benefits. Benefits for accidental death are 50% of the average final compensation of the member plus an additional amount for each child, or the provisions for ordinary death. Ordinary death benefits consist of a pension equal to 40% of the average final compensation of the member plus an additional amount for each child, or a lump-sum distribution to the designated beneficiary equal to 50% of the previous year's earnable compensation of the member or equal to the amount of the member's total contributions plus interest.

Benefits are increased annually in accordance with Chapter 411.6 of the Code of Iowa, which provides a standard formula for the increases.

The surviving spouse or dependents of an active member who dies due to a traumatic personal injury incurred in the line of duty receives a \$100,000 lump-sum payment.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

Contributions – Member contribution rates are set by state statute. In accordance with Chapter 411 of the Code of Iowa, the contribution rate was 9.40% of earnable compensation for the year ended June 30, 2017.

Employer contribution rates are based upon an actuarially determined normal contribution rate and set by state statute. The required actuarially determined contributions are calculated on the basis of the entry age normal method as adopted by the Board of Trustees as permitted under Chapter 411 of the Code of Iowa. The normal contribution rate is provided by state statute to be the actuarial liabilities of the plan less current plan assets, with such total divided by 1 percent of the actuarially determined present value of prospective future compensation of all members, further reduced by member contributions and state appropriations. Under the Code of Iowa the employer's contribution rate cannot be less than 17.00% of earnable compensation. The contribution rate was 25.92% for the year ended June 30, 2017.

The City's contributions to MFPRSI for the year ended June 30, 2017 was \$1,467,867.

If approved by the state legislature, state appropriations may further reduce the employer's contribution rate, but not below the minimum statutory contribution rate of 17.00% of earnable compensation. The State of Iowa, therefore, is considered to be a nonemployer contributing entity in accordance with the provisions of the Governmental Accounting Standards Board Statement No. 67, Financial Reporting for Pension Plans.

There were no state appropriations to MFPRSI during the fiscal year ended June 30, 2017.

Actuarial Assumptions - The total pension liability in the June 30, 2016, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of inflation	3.00% per annum
Rates of salary increase	4.50 to 15.00%, including inflation.
Investment rate of return	7.50%, net of pension plan investment expense, including inflation

The actuarial assumptions used in the June 30, 2016 valuation were based on the results of an actuarial experience study for the period from July 1, 2002 to June 30, 2012.

Postretirement mortality rates were based on the RP-2000 Blue Collar Combined Healthy Mortality Table with males set-back two years, females set-forward one year and disabled individuals set-forward one year (male only rates), with no projection of future mortality improvement.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (i.e., expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

expected inflation. The best estimates of geometric real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Expected Real Rate of Return</u>
Large cap	6.0%
Small cap	5.8
International large cap	7.0
Emerging markets	8.8
Emerging market debt	6.5
Private non-core real estate	9.3
Master limited partnerships	8.5
Private equity	9.8
Core plus fixed income	3.8
Private core real estate	6.8
Treasury inflation protected securities	2.8
Tactical asset allocation	6.0

Discount Rate – The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions will be made at 9.4% of covered payroll and the City contributions will be made at rates equal to the difference between actuarially determined rates and the member rate. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position – Detailed information about the pension plan’s fiduciary net position is available in the separately issued MFPRSI financial report which is available on MFPRSI’s website at www.mfprsi.org.

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2017, the City reported a liability of \$12,108,897 for its proportionate share of the net pension liability. The new pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City’s proportion of the net pension liability was based on the City’s share of contributions to the pension plan relative to the contributions of all MFPRSI participating employers. At June 30, 2016, the City’s collective proportion was 1.936615% which was an increase of .043962% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the City recognized pension expenses of \$1,794,787. At June 30, 2017 the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

	Deferred Outflows of Resources	Deferred Inflows of Resources
	<u> </u>	<u> </u>
Differences between expected and actual results	\$ 312,515	\$ 11,230
Changes of assumptions	511,244	165,859
Net difference between projected and actual earnings on pension plan investments	2,141,134	-
Changes in proportion and differences between City contributions and proportionate share of contributions	511,298	-
City contributions subsequent to the measurement date	<u>1,467,867</u>	<u>-</u>
Total	<u>\$ 4,944,058</u>	<u>\$ 177,089</u>

The \$1,467,867 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended June 30,</u>	<u>Total</u>
2018	\$ 571,278
2019	571,278
2020	1,342,123
2021	800,571
2022	<u>13,853</u>
	<u>\$ 3,299,103</u>

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate - The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.5%) or 1-percentage-point higher (8.5%) than the current rate.

	<u>1% Decrease (6.5%)</u>	<u>Discount Rate (7.5%)</u>	<u>1% Increase (8.5%)</u>
City's proportionate share of the net pension liability:	19,004,295	12,108,897	6,366,497

Payables to the Pension Plan – At June 30, 2017, the City reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted to MFPRSI.

(c) **Money Purchase Plan**

The Water Utility also offers its employees a money purchase plan created and administered in accordance with Internal Revenue Code Section 401(a). The plan, available to all full-time

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

Water Utility employees, permits them to contribute up to 8% of their salary with the Water Utility matching 60% of the employee's contribution.

All assets and income of the plan are held in trusts established for the exclusive benefit of eligible participants and their beneficiaries in accordance with Internal Revenue Code Section 401(a). No part of the trusts shall revert to the Water Utility or be used for or diverted to purposes other than the exclusive benefit of participants and their beneficiaries. Third-party administrators who act in a trustee capacity manage the plans. Accordingly, these plan assets are not reported in the Water Utility's financial statements. The Water Utility made contributions to the plan of \$47,535 the year ended June 30, 2017. The Water Utility's employees made contributions to the plan of \$79,223 for the year ended June 30, 2017.

(7) Other Postemployment Benefits (OPEB)

The City implemented GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits other Than Pensions* during the year ended June 30, 2009. No separately issued audit report is available for this OPEB plan.

Plan Description - The City operates a partially self-insured single-employer benefit plan which provides medical/prescription drug benefits for active employees, qualified retirees, and their spouses/families. There are 202 active and 4 retired members/spouses in the plan. Participants must meet IPERS/MFPRS retirement system eligibility requirements, or be age 55 or older at retirement to participate in the retiree benefit plan. Plan benefits are not available for retirees past age 65.

The medical/prescription drug coverage is provided through a partially self-insured plan with Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

Funding Policy - The contribution requirements of plan members are established by, and may be amended by the City. The City has established a formal OPEB funding policy, which internally designates a portion of the Risk Management Fund's net position balance in an amount at least equal to the City's annual required contribution (ARC), as actuarially calculated, to be set aside to provide for future retiree benefit costs. This internal designation does not qualify as "funding" under GASB Statement No. 45, so for purposes of disclosure and report presentation, the City is considered to be financing the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation - The City's annual OPEB cost is calculated based on the annual required contribution (ARC) of the City, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years using a level dollar approach.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

The following table shows the components of the City's annual OPEB cost the amount actually contributed to the plan and changes in the City's net OPEB obligation for the year ended June 30, 2017:

Annual required contribution	\$	351,990
Interest on net OPEB obligation		27,410
Adjustment to annual required contribution		<u>(62,955)</u>
Annual OPEB cost		316,445
Contributions made, net of retiree contributions		<u>(7,092)</u>
Increase in net OPEB obligation		309,353
Net OPEB obligation beginning of year		<u>1,139,978</u>
Net OPEB obligation end of year	\$	<u><u>1,449,331</u></u>

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2014. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2017.

For the year ended June 30, 2017, the City contributed \$26,652 to the medical plan for retiree claims expenses. Plan members eligible for benefits contributed \$19,560 or 73.4% of claims cost.

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2017 are summarized as follows:

Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2015	\$ 324,453	5.88%	\$ 827,288
June 30, 2016	\$ 332,516	5.94%	\$ 1,139,978
June 30, 2017	\$ 316,445	2.24%	\$ 1,449,331

Funded Status and Funding Progress - As of July 1, 2014, the most recent actuarial valuation date for the period July 1, 2016 through June 30, 2017, the actuarial accrued liability was \$2,244,229 with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$2,244,229. The covered payroll (annual payroll of active employees covered by the plan) was \$13,437,330 and the ratio of the UAAL to covered payroll was 16.70% as of June 30, 2017. As of June 30, 2017, there were no trust fund assets.

Actuarial Methods and Assumptions - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumption about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2014 actuarial valuation date, the frozen entry age actuarial cost method was used. The actuarial assumptions include a 2.5% discount rate based on the City's funding policy. The projected annual health cost trend rate is 5.5%. The ultimate medical trend inflation rate is 5.5%. An inflation rate of 0% is assumed for purpose of this computation.

Mortality rates are from the 94 Group Annuity Mortality Table Projected to 2000, applied on a gender-specific basis. Annual retirement and termination probabilities were developed from the City's past experience. The UAAL is being amortized over 30 years on a closed group basis.

(8) Deferred Compensation Plan

The City offers its employees two options for deferred compensation plans created and administered in accordance with Internal Revenue Code Section 457. The plans, which are available to all City employees, permit them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All assets and income of the plans are held in trusts established for the exclusive benefit of eligible participants and their beneficiaries in accordance with Internal Revenue Code Section 457(g). No part of the trusts shall revert to the City or be used for or diverted to purposes other than the exclusive benefit of participants and their beneficiaries. Third-party administrators who act in a trustee capacity manage the plans. Accordingly, these plan assets are not reported in the City's financial statements.

(9) Risk Management

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The City maintains a Risk Management Fund (an Internal Service Fund) to account for its uninsured risks of loss. The Risk Management Fund provides employee health and group life insurance coverage for City employees. Workers compensation and general liability and auto liability coverages are provided through the City's participation in self-insurance risk pools as described in the subsequent paragraphs. Commercial insurance is purchased for all other risks of loss. Settlements have not exceeded coverages for each of the past three fiscal years.

(a) *Iowa Municipalities Workers' Compensation Association*

The City is a member of the Iowa Municipalities Workers' Compensation Association (the Association). The Association is a local government risk-sharing pool whose more than 500 members include various municipal and county governments throughout the State of Iowa. The Association was formed in July, 1981 to formulate, develop and administer, on behalf of the member governments, a program of joint self-insurance to stabilize costs related to members' workers' compensation liabilities. The members participating in the Association to manage and

CITY OF URBAN DALE, IOWA

Notes to Financial Statements

June 30, 2017

conduct the business and affairs of the Association elect a board of trustees consisting of seven members. Program components include claims management, member education and loss control services. There have been no reductions in insurance coverage from prior years.

Each member pays annual premiums determined by using applicable standard rates for the exposure to risk and applicable experience modification factors of the National Council on Compensation Insurance. Each member may be subject to additional premiums to pay its pro rata share of claims which exceeds the Association's resources available to pay such claims. A distribution to members may also be made if the Association has excess monies remaining after payment of claims and expenses. The Association uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. Claims exceeding \$850,000 are reinsured in an amount not to exceed \$5,000,000 per occurrence. Members may withdraw from the Association at any time provided they provide assets for settlement of all pending claims.

The City's premium contributions to the Association are recorded as expenditures from its operating funds at the time of payment to the risk pool. The City's annual contributions to the Association for the year ended June 30, 2017 were \$144,050.

(b) Iowa Communities Assurance Pool

The City is a member of the Iowa Communities Assurance Pool, as allowed by Chapter 670.7 of the Code of Iowa. The Iowa Communities Assurance Pool (Pool) is a local government risk-sharing pool whose 753 members include various governmental entities throughout the State of Iowa. The Pool was formed in August 1986 for the purpose of managing and funding third-party liability claims against its members. The Pool provides coverage and protection in the following categories: general liability, automobile liability, automobile physical damage, public officials' liability, police professional liability, property, inland marine and boiler/machinery. There have been no reductions in insurance coverage from prior years.

Each member's annual casualty contributions to the Pool fund current operations and provide capital. Annual casualty contributions are those amounts necessary to fund, on a cash basis, the Pool's general and administrative expenses, claims, claims expenses and reinsurance expenses due and payable in the current year, plus all or any portion of any deficiency in capital. Capital contributions are made during the first six years of membership and are maintained at a level determined by the Board not to exceed 300% basis rate.

The Pool also provides property coverage. Members who elect such coverage make annual operating contributions which are necessary to fund, on a cash basis, the Pool's general and administrative expenses, reinsurance premiums, losses and loss expenses for property risks estimated for the fiscal year, plus all or any portion of any deficiency in capital. Any year-end operating surplus is transferred to capital. Deficiencies in operations are offset by transfers from capital and, if insufficient, by the subsequent year's member contributions.

The City's property and casualty contributions to the risk pool are recorded as expenditures from its operating funds at the time of payment to the risk pool. The City's contributions to the Pool for the year ended June 30, 2017 were \$270,156.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

The Pool uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. The Pool retains general, automobile, police professional, and public officials' liability risks up to \$500,000 per claim. Claims exceeding \$500,000 are reinsured through reinsurance and excess risk-sharing agreements up to the amount of risk-sharing protection provided by the City's risk-sharing certificate. Property and automobile physical damage risks are retained by the Pool up to \$250,000 each occurrence, each location. Property risks exceeding \$250,000 are reinsured through reinsurance and excess risk-sharing agreements up to the amount of risk-sharing protection provided by the City's risk-sharing certificate.

The Pool's intergovernmental contract with its members provides that in the event a casualty claim, property loss or series of claims or losses exceeds the amount of risk-sharing protection provided by the City's risk-sharing certificate, or in the event a casualty claim, property loss or series of claims or losses exhausts the Pool's funds and any excess risk-sharing recoveries, then payment of such claims or losses shall be the obligation of the respective individual member against whom the claim was made or the loss incurred.

The City does not report a liability for losses in excess of reinsurance or excess risk-sharing recoveries unless it is deemed probable such losses have occurred and the amount of such loss can be reasonably estimated. Accordingly, at June 30, 2017, no liability has been recorded in the City's financial statements. As of June 30, 2017, settled claims have not exceeded the risk pool or reinsurance coverage since the Pool's inception.

Members agree to continue membership in the Pool for a period of not less than one full year. After such period, a member who has given 60 days' prior written notice may withdraw from the Pool. Upon withdrawal, payments for all casualty claims and claims expenses become the sole responsibility of the withdrawing member, regardless of whether a claim was incurred or reported prior to the member's withdrawal. Upon withdrawal, a formula set forth in the Pool's intergovernmental contract with its members is applied to determine the amount (if any) to be refunded to the withdrawing member.

(10) Commitments

(a) *Joint Operation*

In August of 2000, the City entered into a joint operation of a centralized emergency dispatch center (Westcom) with two other Des Moines suburbs. Westcom was established as an undivided interest ownership arrangement, whereby titles to assets in Westcom are held individually by the City and the other two Des Moines suburbs. The City's share of equity interest in the assets, as shown on the financial statements, represents a proportionate share of the assets owned by the Westcom entity, which are comprised of dispatch related equipment, technology, software and the dispatch building. Since inception, the Westcom operations have expanded the service area to provide dispatch to two additional communities. These two communities are not equity partners, but subscribers to the services provided. The City showed expenditures of \$1,028,886 and has an undivided interest in assets of the operation, net of depreciation, totaling \$1,328,975 as of June 30, 2017. Westcom does not issue separate financial statements. Their operations are included in the financial statements of the City of West Des Moines.

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

(b) Conduit Debt

From time to time, the City has issued Industrial Development Revenue Bonds, under the provisions of Chapter 419 of the Code of Iowa, to provide financial assistance to private sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. The City is not obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements. As of June 30, 2017, there were three series of revenue bonds outstanding, with an aggregate principal amount payable of \$5,340,196.

(c) Iowa Events Center

In 2006, the City Council committed \$640,000 for the Iowa Events Center project, over a 20 year period. The City's contribution will be utilized for the payment of debt service on the bonds issued by Polk County to finance the construction of the downtown arena. The City made payments totaling \$32,000 for the year ended June 30, 2017.

(d) Loan Guarantees

The City is providing loan guarantees for the J-Hawk Soccer Club, and the Urbandale Little League, which approximated \$119,600 at June 30, 2017.

(e) Construction and Purchase Commitments

At June 30, 2017, the following construction and purchase commitments had been made:

	2017	
Project	Total Contracts	Amount Remaining on Contracts
Capital projects fund	\$ 36,660,757	9,520,003
General fund	521,797	211,532
Road Use tax fund	93,750	14,010
Internal service fund - Building Maintenance	396,034	3,170
Total	\$ 37,672,338	9,748,715

(f) Central Iowa Regional Drinking Water Commission

The Water Utility, in conjunction with 23 other governmental entities that provide water services, created a Central Iowa Regional Drinking Water Commission (the Commission). The Commission was created to (1) jointly plan and coordinate implementation for water supply, treatment, distribution, and storage facilities; (2) enable the participants in the Commission to jointly provide services in a cost effective manner; and (3) enable the participants in the Commission to undertake joint or coordinated procurement of goods and services. The

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

Commission has not set a budget for expenditures. The Water Utility will be responsible for its proportional share of the budgeted expenses, which will be determined on the basis of the ratio of its retail customer accounts to the total retail customers of all participants, using the most recent information available each year.

(g) Des Moines Water Works (Water Works)

The Water Utility has entered into agreements with Water Works for the construction of Water Works-owned booster stations, treatment plant, feeder mains, and a storage tank, which will enhance service to the City. Water Works designed, constructed, and financed the booster stations, a treatment plant, feeder mains, and a storage tank through the issuance of revenue bonds. The Water Utility has commitments outstanding at June 30, 2016 to contribute to Water Works \$8,853,046.

Future minimum payments in conjunction with these commitments are:

Years ending June 30,	Maffit Treatment Plant	Saylorville Treatment Plant
2018	\$ 148,152	1,074,977
2019	-	1,078,378
2020	-	1,082,977
2021	-	1,087,063
2022	-	1,091,127
2023-2026	-	3,290,372
	\$ <u>148,152</u>	<u>8,704,894</u>

(11) Net Position Restatement

During the year, the City discovered certain errors related to previous years' depreciation expense and the accumulated depreciated balance related to the retirement of infrastructure capital assets. Beginning net position for the governmental activities was restated to correct the June 30, 2016 accumulated depreciation balance as follows:

	Governmental Activities
Net position June 30, 2016, as previously reported	\$ 164,454,168
Accumulated depreciation correction	<u>(2,445,330)</u>
Net position June 30, 2017, as restated	\$ <u>162,008,838</u>

CITY OF URBAN DALE, IOWA

Notes to Financial Statements

June 30, 2017

(12) Transfer Reconciliation

The following is a schedule of transfers of the City for the years ended June 30, 2017:

	<u>2017</u>
Transfer to General fund from:	
Tax increment financing fund	69,739
Nonmajor governmental funds	\$ 666,114
Total transfers to General Fund	<u>735,853</u>
Transfer to Capital projects fund from:	
Tax increment financing fund	820,000
Road use fund	1,384,500
Storm water utility fund	475,000
Nonmajor governmental funds	185,000
Total transfers to Capital Projects fund	<u>2,864,500</u>
Transfer to Debt Service fund from:	
Tax increment financing fund	<u>3,640,601</u>
Total transfer to Debt Service fund	<u>3,640,601</u>
Transfer to Nonmajor governmental funds from:	
General fund	<u>10,000</u>
Total transfer to Nonmajor government funds	<u>10,000</u>
	<u>\$ 7,250,954</u>

Transfers are primarily used to (1) move revenue from the fund that statute or budget requires them to be collected in to the fund that statute or budget requires them to be expended from, and (2) move receipts restricted to debt service from the fund collecting the receipts to the debt service fund as debt service payments become due.

(13) Tax Abatements

The City adopted the Governmental Accounting Standards Board Statement No. 77, Tax Abatement Disclosures. The Statement sets forth guidance for the disclosure of information about the nature and magnitude of tax abatements which will make these transactions more transparent to financial statement users. Adoption of the guidance did not have an impact on amounts reported in the financial statements.

The new pronouncement defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefit the governments or the citizens of those governments.

The City provides tax abatements for urban renewal and economic development projects with tax increment financing as provided for in Chapters 15A and 403 of the Code of Iowa. For these types of projects, the City enters into agreements with developers which require the City, after developers meet

CITY OF URBANDALE, IOWA

Notes to Financial Statements

June 30, 2017

the terms of the agreements, to rebate a portion of the property tax paid by the developers, to pay the developers an economic development grant or to pay the developers a predetermined dollar amount. No other commitments were made by the City as a part of these agreements.

For the year ended June 30, 2017, the City abated \$1,287,840 of property tax under the urban renewal and economic development projects. Property tax revenues of the City were reduced by \$0 for the year ended June 30, 2017 under agreements entered into by other entities.

CITY OF URBANDALE, IOWA

Notes to Required Supplementary Information – Budgetary Reporting

Fiscal year ended June 30, 2017

The budgetary comparison is presented as Required Supplementary Information in accordance with Government Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund. In accordance with the Code of Iowa, the City Council annually adopts a budget on the cash basis following required public notice and hearing for all funds. The annual budget may be amended during the year utilizing similar statutorily prescribed procedures. Encumbrances are not recognized on the cash basis budget and appropriations lapse at year end.

Formal and legal budgetary control is based upon 9 major classes of disbursements known as functions, not by fund or fund type. These 9 functions are: public safety, public works, health and social services, culture and recreation, community and economic development, general government, debt service, capital projects and business type activities. Function disbursements required to be budgeted include disbursements for the General Fund, Special Revenue Funds, Debt Service Fund, Capital Projects Fund and Enterprise Funds. Although the budget document presents function disbursements by fund, the legal level of control is at the aggregated function level, not by fund. However, emphasis is placed on monitoring budgets by individual funds and by major classifications within functions, such as personnel, operations and maintenance, and capital outlay. Deviations from budgeted amounts by major classifications within programs must be approved by the City Manager. Monthly reports are prepared by Department and program to monitor program expenditures and legally budgeted amounts. All appropriations lapse at the end of the fiscal year.

State law mandates that annual budgets for funds other than Agency and Internal Service for the fiscal year beginning July 1 must be certified to the county auditor no later than March 15, preceding the beginning of the fiscal year. The Council also annually adopts a five-year capital improvement plan. The review and adoption of a budget is handled in accordance with state laws, as there is no City ordinance governing the budget process. Preliminary review of all operating budget requests is conducted by the City manager (the Manager) at a Departmental level. The Manager's budget, considered as a plan of financial operation along with proposed sources of revenues, is presented to the Council at least two months prior to certification. The Council holds hearings with the Manager, department heads, boards, and commissions, as well as a public hearing prior to adopting a budget. By resolution, the Council adopts a budget effective July 1 and certifies it to the county auditor, who, in turn, certifies the City's budget to the State Department of Management. This budget becomes the appropriation and is prepared on a cash basis (budget basis).

Amendments to the budget are considered annually only if revenue sources are available (i.e., unanticipated revenues and budget surpluses). There can be no additional levy of property taxes. The actual amendment process, as prescribed by state law, is identical to the procedures followed for the original budget, including certification. The budgets for the fiscal year ending June 30, 2017 was amended during the year to allow the City to increase disbursements by \$8,209,478 and increased receipts by \$5,699,739, including net other financing sources. The budget amendments are reflected in the final budgeted amounts.

The actual expenditures of the Water Utility were \$17,479,208 compared to a legal budget of \$18,572,394 for the year ended June 30, 2017.

CITY OF URBANDALE, IOWA

Notes to Required Supplementary Information – Pension Liability

Iowa Public Employees' Retirement System - IPERS

Fiscal year ended June 30, 2017

Changes of benefit terms

Legislation enacted in 2010 modified benefit terms for current Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3% per year measured from the member's first unreduced retirement age to a 6% reduction for each year of the retirement before age 65.

Legislative action in 2008 transferred four groups – emergency medical service providers, county jailers, county attorney investigators, and National Guard installation security officers – from Regular membership to the protection occupation group for future service only.

Changes of assumptions

The 2014 valuation implemented the following retirements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25% to 3.00%.
- Decreased the assumed rate of interest on member account from 4.00% to 3.75% per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Reduced retirement rates for sheriffs and deputies between the ages of 55 and 64.
- Moved from an open 30 year amortization period to a closed 30 year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20 year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study.

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates.
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration.

Notes to Required Supplementary Information - Pension Liability:

Changes of benefit terms: There were no significant changes of benefit terms.

Changes of assumptions: Postretirement mortality rates were based on the RP-2000 Blue Collar Combined Healthy Mortality Table with males set-back two years, females set-forward one year and disabled individuals set-forward one year (male only rates), with no projection of future mortality improvement.

FINANCIAL SECTION

Other Supplementary Financial Schedules

CITY OF URBANDALE, IOWA
Nonmajor Governmental Funds

Special Revenue Funds:

Hotel/motel Fund - to account for revenues and expenditures of hotel/motel tax restricted by local ordinance for the promotion of convention and tourism.

Police and Fire Retirement – to account for the revenues generated by the Police & Fire Retirement property tax levy, which can be used to pay the City’s share of MFPRSI pension contributions.

Economic Development Revolving Loan Fund – to account for economic development loans and account for repayments of principal and interest from borrowers. This fund was created in the current fiscal year through a reallocation from the former Revolving Loan agency fund, as those funds became de-obligated from its original restriction.

Library Donations – to account for donated monies held for specific library projects.

Dunlap Arboretum– to account for funds received from Jackaline Baldwin Dunlap Foundation for the ongoing maintenance of the Jackaline Baldwin Dunlap Park and Arboretum.

Fire Donations – to account for donated monies held for specific fire projects or equipment purchases.

Fire Training Tower – to account for funds received for the usage and rental of the Fire Department’s jointly owned live-fire training facility at Station #42, and related maintenance expenditures that result.

Evidence and Forfeited Property – to account for forfeited funds and property received by the City from drug enforcement efforts, police action or investigation. The City must use these forfeited funds and property to enhance law enforcement.

Federal Forfeited Property – to account for funds and property received by the City from federal investigations.

Police Donations - to account for money received to be used on specific police projects.

Tobacco Inspection – to account for funds received from the State for tobacco enforcement activities and held for specific tobacco related projects and programs through the police department.

Alcohol Inspection – to account for funds received from Employee & Family Resources, Inc. for alcohol enforcement activities and held for specific alcohol related projects and programs through the police department. This program has now ended and the funds were released from restriction and moved to General fund.

Making a Connection – to account for money received through a local grant and private donations to support a cultural diversity camp operated by the Recreation Department.

Senior Center Activities – to account for monies received from donations and proceeds from special ear-marked activities, intended for the specified projects of the Urbandale Senior Recreation Center.

STATISTICAL SECTION

(Unaudited)

CITY OF URBANDALE, IOWA

Statistical Section

This part of the City of Urbandale's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, noted disclosures, and required supplementary information says about the government's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Notes:

Taxes are due July and are delinquent on October 1 for first half and April 1 for second half.
Penalty for delinquency: 1 percent per month. No discount allowed.
Uncollected taxes are handled as follows: delinquent real estate tax list is published in the newspaper prior to May 16. Tax sale date is the first Monday in June
Taxes are collected by Polk County and distributed to the City of Urbandale proportionate to its levy to all levies.

* Collected amount include all cash basis property taxes, including delinquent taxes related to prior years, which may result in over 100% collection of levied tax.
** Collections for delinquencies are not available from the County by the year levied. Delinquencies are recorded in the fiscal year collected.

CITY OF URBANDALE, IOWA

Table XII

**Direct and Overlapping Government Activities Debt
As of June 30, 2017**

<u>Governmental Unit</u>	<u>Debt Outstanding</u>	<u>Estimated Percentage Applicable</u>	<u>Estimated Share of Overlapping Debt</u>
Debt repaid with property taxes: Polk	\$ 783,520,403	16.57%	<u>129,861,912</u>
Subtotal, overlapping debt			129,861,912
City of Urbandale direct debt			<u>67,425,000</u>
Total direct and overlapping debt			<u><u>197,286,912</u></u>

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Urbandale. This process recognizes that, when considering the government's ability to issue and repay long-term debt the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

**REPORTS ON COMPLIANCE AND
INTERNAL CONTROLS**

Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

To the Honorable Mayor and
Members of the City Council
City of Urbandale, Iowa

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Urbandale, Iowa, (City) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City’s basic financial statements, and have issued our report thereon dated November 15, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2017-A, that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Comments involving statutory and other legal matters about the City's operations for the year ended June 30, 2017 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the City and are reported in Part IV of the accompanying schedule of findings and questioned costs. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

City's Response to Finding

The City's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Dubuque, Iowa
November 15, 2017

Independent Auditor’s Report on Compliance for the Major Federal Program and Report on Internal Control Over Compliance Required by the Uniform Guidance

To the Honorable Mayor and
Members of the City Council
City of Urbandale, Iowa

Report on Compliance for the Major Federal Program

We have audited the City of Urbandale, Iowa’s (City) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the City’s major federal program for the year ended June 30, 2017. The City’s major federal program is identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor’s Responsibility

Our responsibility is to express an opinion on the compliance for the City’s major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the City’s compliance.

Opinion on the Major Federal Program

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major Federal program for the year ended June 30, 2017.

Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on the major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for the major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Urbandale, Iowa, and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of the Uniform Guidance. The City received federal awards both directly from federal agencies and indirectly through pass-through entities. Federal financial assistance provided to a subrecipient is treated as an expenditure when it is paid to the subrecipient. The City had no subrecipients during the year ended June 30, 2017.

Note 2 - Significant Accounting Policies

Governmental fund types account for the City's federal grant activity. Therefore, expenditures in the schedule of expenditures of federal awards are recognized on the modified accrual basis – when they become a demand on current available financial resources. The City's summary of significant accounting policies is presented in Note 1 in the City's basic financial statements.

The City has not elected to use the 10% de minimis cost rate.

Part I: Summary of the Independent Auditor's Results:

Financial Statements

Type of auditor's report issued	Unmodified
Internal control over financial reporting:	
Material weaknesses identified	No
Significant deficiencies identified not considered to be material weaknesses	Yes
Noncompliance material to financial statements noted?	No

Federal Awards

Internal control over major programs:	
Material weaknesses identified	No
Significant deficiencies identified not considered to be material weaknesses	None reported
Type of auditor's report issued on compliance for major program:	Unmodified
Any audit findings disclosed that are required to be reported in accordance with Uniform Guidance 2 CFR 200.516:	No
Identification of major program:	
<u>Name of Federal Program</u>	<u>CFDA Number</u>
Highway Planning and Construction	20.205
Dollar threshold used to distinguish between type A and type B programs:	\$ 750,000
Auditee qualified as low-risk auditee?	Yes

Part II: Findings Related to the Financial Statements:

SIGNIFICANT DEFICIENCY:

2017-A Net Position Restatement

Criteria – A properly designed system of internal control over financial reporting allows entities to initiate, authorize, record, process, and report financial data reliably in accordance with generally accepted accounting principles.

Part II: Findings Related to the Financial Statements: (continued)

Condition – During the year ended June 30, 2017, the City identified and corrected prior year misstatements related to depreciation and accumulated depreciation being understated in fiscal years 2015 and 2016.

Cause – The prior year misstatements were related to capital assets. The City has a limited number of office employees with knowledge and experience of capital projects activity and reporting. Consequently, the City’s review process for the statement of net position is limited.

Effect – The effect of this condition was financial data not in accordance with generally accepted accounting principles.

Recommendation – The City has implemented additional financial statement review procedures. We recommend the City continue to evaluate and improve review procedures.

Views of Responsible Officials – The City has adapted asset deletion review procedures to accommodate the limited reporting abilities of the third party infrastructure tracking software being utilized. The misstatement was identified by City staff during this adapted review, and beginning net position corrections have been restated in the financial statements. The City does not feel this will continue to be an issue, given the new procedures put in place.

Part III: Findings and Questioned Costs for Federal Awards:

There were no federal findings and questioned costs to report.

Part IV: Other Findings Related to Required Statutory Reporting:

2017-IA-A Certified Budget – Disbursements during the year ended June 30, 2017, did not exceed the amount budgeted.

2017-IA-B Questionable Expenditures - We noted no expenditures that we believe may fail to meet the requirements of public purpose as defined in an Attorney General’s opinion dated April 25, 1979.

2017-IA-C Travel Expense - No expenditures of City money for travel expenses of spouses of City officials or employees were noted.

2017-IA-D Business Transactions - No business transactions between the City and City officials or employees were noted.

2017-IA-E Bond Coverage - Surety bond coverage of City officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure that the coverage is adequate for current operations.

2017-IA-F Council Minutes - No transactions were found that we believe should have been approved in the Council minutes but were not.

Part IV: Other Findings Related to Required Statutory Reporting: (continued)

- 2017-IA-G Deposits and Investments** - No instances of non-compliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the City's investment policy were noted.
- 2017-IA-H Annual Urban Renewal Report** – The annual urban renewal report was properly approved and certified to the Iowa Department of Management on or before December 1.
