

## **Urban Loop**

TURNING ACCESS INTO OPPORTUNITY

Sixty years ago, I-35/80 with its iconic ninety-degree turn in the freeway was constructed in Urbandale. Today, 100,000 vehicles per day use Urbandale's transportation network to reach great jobs, markets, recreation and home.

Access in Urbandale is about to be enhanced with the opening of new interchanges at 100th Street in 2018 and Meredith Drive in 2020. A flyover ramp for northbound Iowa 141 traffic will also open in 2020.

The Urban Loop is a new identity and a new way to highlight Urbandale's assets. What does that mean for you?

- More shopping, dining and entertainment options
- Increased business growth and job opportunities
- More investments and a more robust economy
- More efficient commutes within Urbandale and around the Metro

**Stay in the loop!**
