## Meredith Drive half-diamond interchange and Iowa 141 flyover in the Urban Loop are open

This begins the first full work week that the Meredith Drive half-diamond interchange and Iowa 141 flyover in the Urban Loop are open. Before sunrise last Friday, the work was completed to open these two projects to traffic. There are now seven interchanges with Interstate 35/80 that serve development areas in Urbandale, including the full diamond interchange access at 100<sup>th</sup> Street that was added in 2018. A searchlight will be shining into the night sky until Thursday to celebrate this major community accomplishment.

We have prepared a [full page of resources](#) for you on the Urban Loop, including badges that can be added to marketing materials indicating that a property is “Located in the Urban Loop.”

And before we go, [here's a three minute video](#) with great images and perspectives on the Urban Loop from Iowa Department of Transportation Director **Scott Marler**, Mayor **Bob Andeweg**, Polk County Supervisor **Bob Brownell**, Assembled Products Inc. CEO **Matt Ulrich**, and **David Dougherty**, President of Transportation and Principal at HRGreen.
