## Appendix A:

### Fees for the Regulation of Industrial Wastewater, Commercial Wastewater; Discharges of Fat, Oil and Grease; and Hauled Waste

#### 52.020 - FEES

A. All users shall be subject to the following fees and charges:

1. The one-time wastewater discharge permit application fee shall be \$200.00 for a class A permit and, \$100 for a class B permit.
2. The annual fee for a class A wastewater discharge permit including annual inspection of permitted users, shall be \$1,500.00.
3. The annual fee for a class B wastewater discharge permit, including annual inspection of permitted users if completed or applicable, shall be \$750.00.
4. The fee paid by each industrial user when an accidental discharge or slug load occurs shall be the total of all costs incurred by the WRA as a result of said discharge or load. Said fee may be charged by the WRA separately from and in addition to a civil penalty of up to \$1,000.00 charged to the user under Chapter 52 related to said discharge or load.
5. The trip charge for sampling or inspecting a user's discharge shall be \$50.00 per event. An equipment fee of \$50.00 per event shall also apply when using a WRA-owned automatic sampler. When a sampling or inspection event must be rescheduled due to failure of the user's sampling equipment, a sampler seal (used to detect sample tampering) being broken, monitoring facilities not being readily accessible or operational, or any other reason beyond the control of the WRA, a trip charge of \$50.00 shall be assessed.
6. Fees for rescheduling a scheduled inspection with WRA personnel, with less than 24 hours' notice or if appropriate facility managers are unavailable at the scheduled time of inspection, annual or biannual inspections of permitted users shall be \$100.00 per rescheduled inspection.
7. Prohibitive waste charges for each pollutant discharged in excess of permit or ordinance limits shall be \$50.00 per violation for class B permit holders and \$100.00 per violation for class A permit holders. Charges shall double if discharges exceed slug threshold values. Payment of fees does not preclude other enforcement action and may not be paid in lieu of compliance with discharge limitations.
8. At the WRA's discretion, administrative cost recovery fees may be assessed separately to a user or added to a user's disposal fee for actions or occurrences subject to Chapter 52 which result in the need for additional labor, equipment, and/or materials from the WRA or its contractors, including but not limited to cleanup of spills, infrastructure maintenance, improper scale transactions, improper disposal, and waste source verification. Fees shall be assessed based on the actual costs incurred by the WRA, or on the estimated costs incurred by the WRA rounded down to the nearest multiple of twenty based on actual rates for labor, materials, and equipment with a minimum fee of not less than \$20.00. Fees will be charged in addition to charges, fines, fees, or

## Appendix A:

### Fees for the Regulation of Industrial Wastewater, Commercial Wastewater; Discharges of Fat, Oil and Grease; and Hauled Waste

12. Fees for past due reminders sent each 30 days that a balance remains unpaid shall be \$5.
13. At the WRA’s discretion, administrative cost recovery fees may be assessed separately to a user or added to a user’s disposal fee for actions or occurrences subject to Chapter 52 which result in the need for additional labor, equipment, and/or materials from the WRA or its contractors, including but not limited to cleanup of spills, infrastructure maintenance, improper scale transactions, improper disposal, and waste source verification. Fees shall be assessed based on the actual costs incurred by the WRA, or on the estimated costs incurred by the WRA rounded down to the nearest multiple of twenty based on actual rates for labor, materials, and equipment with a minimum fee of not less than \$20.00. Fees under this section (l) will be charged in addition to charges, fines, fees, or other costs associated with rejected, unapproved, or atypical wastes under sections 52.098 and 52.099 of this chapter.
14. A treatment fee pursuant to section 52.099 shall be charged per pound of hauled waste disposed of at the WRF and assessed based on the waste type, pollutant loading, approved disposal location, and location of the source material. The fee for treatment shall include electrical, chemical, labor, equipment, fuel, maintenance, and any capital costs associated with the treatment processes utilized. The treatment fee shall reflect a total cost per gallon or per pound of hauled waste equaling the sum of the total cost of pollutants per gallon or per pound plus, if applicable, total cost of flow per gallon, based on: (1) the parameters of chemical oxygen demand (COD), estimated biochemical oxygen demand (BOD), total suspended solids (TSS) and/or total solids (TS), volatile solids (VS), total Kjeldahl nitrogen (TKN), oil and grease (O&G), and, if applicable, total phosphorus (TP) contained in trucked waste to the WRF; (2) net weight of the wasteload in pounds; and (3) the treatment surcharge component rate per pound of pollutant as found in section 52.020 of this division. Wasteloads disposed of at an unapproved location at the WRF, or containing pollutant concentrations different from typical pollutant concentrations or from original disclosures made during the wasteload approval process, may be subject to additional costs: treatment fees, charges, or fines may also be applied pursuant to section 52.020(1)(l).
- B. All users contributing wastewater in excess of the following concentrations shall be assessed a surcharge, which shall be in addition to the rates and charges ordinarily billed to those users for sewer use. Commencing October 1, 2022 until June 30, 2025, surcharges shall be assessed in accordance with the following rate schedule:

Pollutant	Surcharge per Pound of Pollutant for the Period:		
	10/1/2022 – 6/30/2023	7/1/2023 – 6/30/2024	7/1/2024 – 6/30/2025
Total suspended solids in excess of 250 mg/l	\$ 0.18	\$ 0.20	\$ 0.22

## Appendix A:

Fees for the Regulation of Industrial Wastewater, Commercial Wastewater;  
Discharges of Fat, Oil and Grease; and Hauled Waste

BOD or CBOD in excess of 200 mg/l	0.14	0.17	0.21
TKN in excess of 30 mg/l	0.55	0.49	0.42
Oil and grease in excess of 100 mg/l	0.08	0.10	0.11

Commencing on July 1, 2025, surcharge rates listed in the above table shall be annually adjusted as of July 1 of each year to increase two percent per annum rounded to the nearest whole cent.

Chemical oxygen demand (COD) in excess of 300 mg/l may be used at the discretion of the WRA Director in lieu of CBOD. In this case the excess COD concentration shall be multiplied by the known CBOD/COD ratio or by a ratio of two-thirds to establish an equivalent CBOD concentration.

Ammonia nitrogen (NH<sub>3</sub>-N) in excess of 15 mg/l may be used at the discretion of the WRA Director in lieu of TKN by multiplying the excess NH<sub>3</sub>-N concentration times two to establish an equivalent TKN concentration.

- C. The establishment and imposition of new or different fees or charges, in addition or in substitution for those provided above in this section, shall be by ordinance amending this chapter. The amounts of the fees and charges established in this section shall be and remain in effect until a time as the WRA Board shall by resolution revise the fee amounts. The revised fees and charges shall take effect after the Board causes the resolution to be sent to this City Council and thereafter causes same to be published in a newspaper of general circulation in each county in which participating communities are located.
